24-way photovoltaic distribution box

Overview

The 24-way DB electrical distribution box is ideal for managing up to 24 circuits in both solar and residential projects, offering space-efficient design, IP65 protection, and compatibility with standard DIN rail breakers for safe and compliant installations. Is a 24-Way DB Box Suitable for. Application: Suitable for indoor and outdoor electric, communication, fire fighting apparatus, iron and steel smelting, petrochemical industry, electron, power system, railway, building, mine, air and sea port, hotel, ship, works, waste water treatment equipment, environmental equipment and so on.
24-way waterproof distribution box with side-opening hinged cover for high-capacity distribution. Constructed from ABS base + PC transparent cover, rated IP65 for strong waterproof and dustproof performance. This waterproof IP65 enclosure integrates lightning protection, individual fuses, MCB switches, and surge protection devices to. The NUZAMAS 24-Way Waterproof Distribution Box is expertly crafted from premium PC and ABS alloy plastics, ensuring exceptional durability and long-lasting performance.
