

12-core bundled optical cable splice model

Overview

This 12 Core Bundle Fiber Optic Pigtail supports SC, LC, FC, ST, E2000 connectors for maximum compatibility. It fits single-mode and multimode fiber systems with UPC/APC polish options. The Bojan Fiber Optic Splice Pack BY-JXB212 is a durable, double-ended splice pack designed for efficient fiber optic cable management. Ideal for ODF, patch panel, FTTH, data center and telecom room wiring. The closure casing is made of high-quality engineering plastics, and has good explosion-proof performance against acid and alkali salt, anti-aging, as well as a smooth appearance and reliable mechanical structure. This closure is suitable for various installation scenarios, including overhead, pipeline, and buried applications, making it versatile for diverse fiber optic deployments. It integrates fiber splicing, optical signal splitting, termination and cable management into a compact enclosure for indoor and outdoor applications. Designed without adapter slots, this enclosure provides a high-reliability, low-loss solution for environments where permanent fusion splicing is preferred.
