Kuwait Fireproof Cable Tray Models and Specifications

Overview

Our cable trays meet stringent Fire retardant requirements. Our cable support systems are available in two types- Ladder cable tray and perforated cable tray.

Key Takeaways

Kuwait offers a range of fireproof cable trays including FRP/GRP trays, stainless steel fire-rated trays, and heavy-duty ventilated models, designed to meet stringent fire safety and corrosion resistance standards. FRP/GRP Cable Trays (Al Nafe Group)Al Nafe Group provides FRP (Fiber Reinforced Plastic) and GRP (Glass Reinforced Plastic) cable trays that are ideal for environments where metallic trays are prone to corrosion. Key features include: Types: Ladder cable trays and perforated cable traysMaterials: Glass-armored thermoset fire-resistant resinsProperties: Anti-corrosion, high strength, UV resistant, non-toxic, low thermal conductivity, and good electrical insulationAccessories: FRP coupler plates, expansion plates, angle plates, adjustable splice plates, hold-down clips, cover clamps, trefoil clamps, cable ties, blind plates, and divider stripsSizes and Fittings: Available in varied sizes with bends, tees, crosses, reducers, and custom fittingsApplications: Suitable for industrial, commercial, and chemical environments, including water and wastewater tanksFire-Rated Metal Cable Trays (NewReach)NewReach offers fire-rated cable trays designed to maintain cable integrity during fire emergencies.

Specifications include: Materials: Stainless steel, galvanized steel, tempered glass, and fire-resistant polyester fiberglassFire Resistance: Tested to ISO 834-1, EN 1363-1, DIN 4102-12, and AS/NZS 3013: 2005; WS5X classification provides a 2-hour fire rating at up to 1050°CDimensions: Standard 3-meter lengths, 150mm laying width, 10kg/m load rating on a 1. 65-meter spanInstallation: Compatible with 10mm threaded rod hangers, eliminating the need for trapeze supportsFeatures: Non-toxic, moisture, dust, UV, and chemical resistant; includes compressible firestop bricks for flexible installationVentilated and Heavy-Duty Cable TraysLocal suppliers like Keplic and Almeer Industries provide ventilated and heavy-duty cable trays suitable for high-load and high-current applications.

Ventilated trays: Improve cable cooling and increase current-carrying capacityHeavy-duty trays: Designed for industrial and commercial installations with easy cable management and future expansionCompliance and StandardsFireproof cable trays in Kuwait are designed to comply with international fire safety standards and are tested for load-bearing capacity, fire resistance, and durability. Both FRP/GRP and metal fire-rated trays ensure safe cable routing in critical facilities such as hospitals, data centers, power plants, and high-rise buildings.

Summary

For projects in Kuwait, you can choose from: FRP/GRP trays for corrosion resistance and lightweight applicationsStainless steel or galvanized fire-rated trays for high fire resistance and heavy loadsVentilated or perforated trays for improved cable cooling and flexibility These trays come with a wide range of accessories, fittings, and covers to meet specific project requirements, ensuring safety, durability, and compliance with fire protection standards.

Cable Tray System – Kuwaiti Al Nafe Group for General Trading ...

Our cable trays meet stringent Fire retardant requirements. Our cable support systems are available in two types- Ladder cable tray and perforated cable tray. These are good replacement of those cable

Cable Tray in Kuwait | Hazardous Area FRP Cable Tray Suppliers

The Fiberglass Cable Tray is a corrosion-resistant cable management system used to route, support, and protect electrical cables in industrial, commercial, utility, marine, offshore, and hazardous-area

Top FRP Cable Tray Manufacturers in Kuwait

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

An FRP cable tray exporters in Kuwait is a worldwide demanded product with rigorous performance standards in severe market environments under severe weather conditions like coastal

Cable Tray – Almeer Industries

They are especially useful in situation situations where changes to a wiring system are anticipated, since new cables can be installed by laying them in the tray,

CABLE TRAY

Standard length of 2.44 Or 3 mtrs This length has been standardized as Handling, shipment, storage, site usage etc... Standard widths based on tray type are: -50mm. -900mm. Standard thickness

FRP Cable Trays Supplier in Dubai, UAE & Kuwait

Ferrotech FRP Cable Tray system are Manufactured from Glass Armoured thermoset fire retardant resins. Available in different range, applied for ideal locations where the Metallic systems get easily

Cable Trays

Our cable trays offer reliable and efficient cable management solutions for both residential and commercial applications. With a wide range of sizes and

Cable Tray | Cable Management System Supplier in UAE & Kuwait

Cable Tray, Cable Management System Supplier in UAE & Kuwait, offers a complete range for Electrical contractors to route light duty to heavy cables

Keplic – Keplic

We produces a variety of products ranging from cable management systems; cable trays, cable ladders, trunkings and support systems.
