Om3 fiber optic price

Overview

Our bulk multimode OM3 50/125 bulk unterminated fiber includes all jacket types, is in stock, cut to your custom length, and usually ships within 24 hours.

Key Takeaways

OM3 fiber optic cables typically range from around $0. 50 per foot for bulk indoor cables to $400–$500 for 1000-foot spools, depending on type and specifications.

Pricing Overview

Bulk per-foot pricing: Indoor OM3 50/125 multimode fiber optic cables are available for approximately $0. 50–$1. 50 per foot, depending on jacket type (plenum, riser, or outdoor-rated) and vendor.

Spool pricing: A 1000-foot spool of OM3 12-strand indoor/outdoor plenum-rated cable can cost around $400–$500 on Amazon, offering high-speed 10G Ethernet support up to 300 meters. Patch cables and pre-terminated options: Shorter duplex or patch cables are generally priced from $10 to $50 depending on length and connector type. Vendor-specific pricing: Mouser Electronics lists OM3 fiber optic cables with variable pricing based on quantity and configuration, and tariffs may apply for shipments to the United States.

Factors Affecting Price

Cable Length: Longer spools reduce the per-foot cost but increase upfront expense. Jacket Type: Plenum-rated cables for fire safety are more expensive than standard indoor cables. Strand Count: Higher strand counts (e.g., 12 or 24 strands) increase cost.

Indoor vs. Outdoor: Outdoor-rated or armored cables designed for weather resistance and durability are priced higher. Vendor and Shipping: Prices vary by supplier, and additional tariffs or shipping fees may apply.

Recommendations

For data centers or enterprise networks, bulk spools with plenum or armored jackets provide cost efficiency and durability. For short runs or patch connections, pre-terminated duplex cables are convenient and cost-effective. Always check vendor specifications to ensure compatibility with 10G Ethernet and compliance with fire safety standards.

By considering these factors, you can select an OM3 fiber optic cable that balances performance, safety, and cost for your specific networking needs.
