Splitter slot prices vary widely depending on type, ranging from around $10 for PCIe splitters to $20–$50 for fiber optic slot box splitters, with wholesale and bulk options available.

PC

Ie Slot SplittersPCIe slot splitters, used to expand a single PCIe slot into multiple connections for GPUs, SSDs, or other devices, are available on platforms like Amazon and Newegg. Retail prices typically start at $10–$30 for standard consumer-grade splitters, depending on the number of outputs, cable length, and brand. Some high-end or specialized splitters may cost more, especially if they support multiple GPUs or high-speed data transfer.

Shipping costs may vary by region.

### Fiber Optic Slot Box Splitters

Fiber optic slot box splitters, used in telecommunications and networking, are generally more expensive. On platforms like Alibaba and Made-in-China, prices for a 1x4 PLC splitter or similar slot box splitters range from $20 to $50 per unit for small orders, with discounts available for bulk or OEM orders. Prices depend on specifications such as insertion loss, connector type, and customization options.

Shipping fees and delivery times vary based on destination and order size.

### Wholesale and Custom Options

For both PCIe and fiber optic splitters, wholesale or factory-direct purchases can significantly reduce costs. Suppliers often provide customization, OEM/ODM services, and bulk discounts, which is ideal for distributors or large-scale projects. It is recommended to request quotes from multiple suppliers to ensure competitive pricing and confirm shipping terms.

SummaryPCIe splitters: ~$10–$30 per unit for consumer models, higher for multi-GPU or specialized versions. Fiber optic slot box splitters: ~$20–$50 per unit, with bulk discounts available. Wholesale/custom orders: Prices vary; contacting suppliers directly is recommended for accurate quotes and shipping costs.

These ranges provide a practical overview for budgeting and purchasing decisions.
