72-core optical cable manufacturers

Overview

72 Core Fiber Optic Cable Selection for Telecom ProjectsSource 72 core fiber optic cable with fiber type, loose tube design, jacket, tensile strength, drum.

Key Takeaways

Leading manufacturers of 72-core optical fiber cables include HuaDong Cable Group, OWIRE Cable, Hongan Group, Mireko, and ME Fiber Optic, offering both single-mode and multimode options for aerial, duct, and indoor/outdoor applications. Key Manufacturers and Suppliers1.

Hua

Dong Cable Group Hua

Dong specializes in GYTS fiber optic cables with 72 cores, suitable for duct and aerial installations. They offer both single-mode and multimode cables, with loose tube stranding for stress-free fiber movement. Their cables feature corrugated steel tape armor, PE outer sheath, and metal strength members for crush and gunshot resistance.

Hua

Dong exports globally, including to South Africa, Southeast Asia, and the Middle East, and provides custom designs based on client requirements. 2.

OWIRE Cable OWIR

E emphasizes B2B selection guidance for 72-core cables, helping buyers choose based on fiber standard, loose tube structure, jacket material, tensile strength, installation route, drum length, and testing. They cater to network contractors, FTTH installers, ISPs, and OEMs, ensuring batch consistency, export packing, and after-sales support. 3.

Hongan Group Hongan Group, based in Shandong, China, produces outdoor and indoor fiber optic cables, including 72-core CST optical fiber cables. They have advanced production lines and testing equipment imported from the US, Japan, and Europe, with a production capacity of 50 million core kilometers. Hongan offers high-quality, reliable cables for telecom, data centers, and FTTx applications.

4. Mireko Mireko provides customizable 72-core fiber optic cables for demanding environments, supporting both indoor and outdoor installations. Their cables are designed for high bandwidth, low attenuation, and durability, with options for tailored lengths and features.

Mireko emphasizes quality testing, certification, and sustainable production practices. 5.

ME Fiber Optic M

E Fiber Optic offers 72-core GYTA aluminum jacketed cables, suitable for long-haul communication and LANs. These cables are moisture-resistant, crush-resistant, and hydrolysis-resistant, with a stranded loose tube design and strong polyethylene jacket. They support both aerial and duct installations and can be customized for specific project requirements.

Considerations When Selecting a 72-Core CableFiber Type: Single-mode (G652D) or multimodeCable Structure: Loose tube, armored, or light armoredInstallation Environment: Aerial, duct, or direct burialMechanical Properties: Tensile strength, crush resistance, and hydrolysis resistanceTesting and Certification: Ensure compliance with international standardsCustomization: Length, core count, and jacket material based on project needsSupplier Support: Export capabilities, after-sales service, and technical guidanceThese manufacturers provide a range of high-quality 72-core optical fiber cables suitable for telecom, data centers, and industrial applications, with options for customization and global shipping.

72 Core Fiber Optic Cable Selection for Telecom Projects

Source 72 core fiber optic cable with fiber type, loose tube design, jacket, tensile strength, drum length, testing, and bulk delivery.

Wholesale 72 Core Fiber Optic Cable Product List

Global Sources has a full-scale list of wholesale 72 core fiber optic cable products at factory prices featured by verified wholesalers & manufacturers from China, India, Korea, and other countries to

Fiber Optic Cables

CommScope designs and manufactures a comprehensive line of fiber optic cables—from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

China Outdoor 72core Fiber Optic Cable Assemblies

We offer high quality and flexible outdoor 72core fiber optic cable assemblies with lc/apc connectors with effective operation. It can be used in a great range of fields.

Outdoor Stranded Loose Tube jellfree, Single mode 72 Core

Suitable for aerial, duct and direct buried; Long distance and local area network communication. Good mechanical and temperature performance HDPE sheath protects cable from Ultraviolet Radiation

Multi-Loose Tube Fiber Cable

Outdoor dry core optical fiber Multi Loose Tube cable with aramid yarns as strength member and polyethylene outer jacket. Existing out of 6 tubes with a diameter of 1.9mm with 72 fibers (6t x 12f)

72 Fiber MTP Cables

OptoSpan''s 72 Fiber MTP Cables feature a Dual Jacket design complete with an additional layer of protective yarn resulting in a 4.5mm thick shell that increases resistance to damage and protects

72 Core Fibre Optic Cable

Discover premium quality 72 core fibre optic cable designed to enhance connectivity and performance. Ideal for business buyers seeking reliable solutions.

72 Cores GYTA Aluminum Jacket Fiber Optic Cable

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

72 Cores GYTA fiber optic cable is used for duct or aerial applications suitable for installation for long haul communication and LANs, especially suitable for the situation of high

HUBER+SUHNER and Microsoft Azure announce new

Fiber optic manufacturer HUBER+SUHNER has strengthened its partnership with Microsoft Azure Fiber to accelerate the rollout of its Hollow Core

WebProcure

WebProcure offers best-in-class functionality, reaching end-to-end from requester to procurement buyer to merchant, and all the way back! Designed specifically for the public sector.

How Many Core In Fiber Optic Cable Do I Need

The number of fiber cores mainly depends on interface of fiber connection equipment and type of the device,read details in this blog.
