US Cable Tray Seismic Bracing Solution

Overview

Kit contains items needed for seismic bracing long cable tray runs. We have decades of experience with real-world applications in severe seismic zones, supplying orld-class products and solutions. Our strong legacy includes OSHPD OPA and OPM approvals, Structural Engineer approvals, and compliance with Internation-al Building. Cablofil Wiremesh Cable Tray concept based upon performance, safety and economy; three qualities which make Cablofil Wiremesh Cable Tray system preferred by installers. Cablofil adapts to the most complex configurations, and its structure gives maximum strength for minimum weight. Our team of experts can help you select the best cable tray series for your. es are in terms of axial tension and listed in LRFD. Please refer to the project engineering submittal Include lutions for 3⁄8" to 1⁄2" threaded ro es are color co rated and select products with OSHPD Pre-App ity by utilizi ur seismic enginee SA Publication No. BR309002EN DeThe B-Line series seismic bracing cable kits, featuring the patented KwikWireTM tool-less clamp, are up to 50% faster to install over traditional cable bracing methods.
