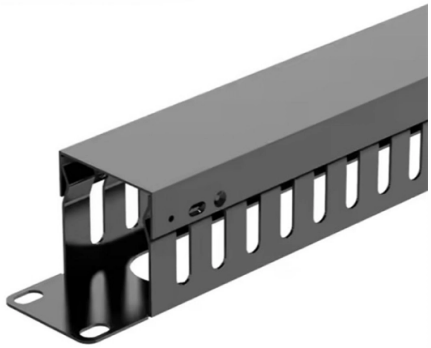
What are some manufacturers of color-bar optical cables



Overview

Top 10 fiber optic cable manufacturers for 2026 — in-depth profiles of Prysmian, Corning, CommScope, Furukawa, Sumitomo, YOFC, Nexans, Hengtong, Sterlite and JXL.

Key Takeaways

Leading manufacturers of color-bar optical cables include Optical Cable Corporation (OCC), Corning, CEF/Optral, and CommScope, all offering high-performance fiber optic solutions for broadcast, industrial, and data center applications. Key Manufacturers1. Optical Cable Corporation (OCC) OCC is a pioneer in fiber optic cable design and production, with over 30 years of experience.

They specialize in high-performance cables for broadcast, industrial, and military applications. OCC's cables are designed to withstand harsh environments, including extreme temperatures and mechanical stress, making them suitable for color-bar optical cables used in demanding setups. Their products include hybrid SMPTE cables and plug-and-play solutions for fast deployment and reliable performance.

2. Corning Corning is a global leader in fiber optic technology, offering a wide range of cables for indoor, outdoor, and indoor/outdoor applications. Their product lines include ribbon cables, loose tube, and microduct designs, which provide high fiber density and color-coded identification for easy installation and maintenance.

Corning's ALTOS® and MiniXtend solutions are engineered for stable performance across temperature extremes and high-bandwidth requirements. 3.

CE

F / Optral Cables Especiales de Fibra S. L. U. (CEF), part of the Cunext Group, operates under the Optral brand.

They manufacture and distribute fiber optic cables for indoor and outdoor applications, including solutions suitable for color-coded fiber management. Optral focuses on innovation and sustainability, providing cables for industrial, mobility, and high-performance networking applications. 4.

Comm

Scope Comm

Scope offers a comprehensive line of fiber optic cables, including outside plant, indoor/outdoor, and fire-rated indoor cables. Their solutions are designed for high reliability and performance, supporting color-coded fiber arrangements for easy identification and network management. CommScope's fiber cables are widely used in enterprise, data center, and industrial environments.

Considerations for Choosing a ManufacturerApplication Environment: Ensure the cable is rated for indoor, outdoor, or hybrid use. Durability: Look for crush resistance, temperature tolerance, and mechanical strength. Fiber Count and Color Coding: Choose cables with clear color-bar identification for easier installation and maintenance.

Compliance and Standards: Verify compliance with industry standards such as SMPTE, LSZH, or plenum ratings depending on your application. These manufacturers provide reliable options for color-bar optical cables, ensuring high performance, durability, and ease of installation in professional and industrial settings.
