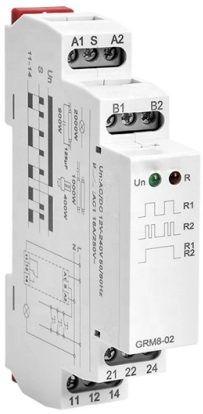
American Overhead Cable Tray Production



Overview

The top 50 cable tray manufacturers in the United States cable tray manufacturing sector are a robust and diverse one, and are bound to establish big and innovative newcomers.

Key Takeaways

The United States produces a wide range of overhead cable trays through leading manufacturers like Atkore, MP Husky, Snake Tray, Eaton, Legrand, and Southwire, offering steel, aluminum, fiberglass, and wire basket systems compliant with NEMA and UL standards.

Leading Manufacturers and Products

Atkore (US Tray) specializes in made-to-order cable trays built per NEMA standards and UL certified. Their product line includes wire basket trays, I-beam trays, C-channel trays, and solid or vented bottom (Trof) trays, all designed for airflow, dust protection, and ease of installation. Atkore emphasizes Buy America compliance and provides logistics and installation support.

P Husky is a founding member of the USA Cable Tray Institute and produces aluminum, galvanized steel, stainless steel, fiberglass, PVC-coated, single rail, and wire mesh trays. Their systems meet or exceed NEMA, UL, CTI, and CSA standards and are widely used across industrial, commercial, and utility sectors. Snake Tray offers innovative cable management solutions including Mega Snake and Snake Canyon systems, designed to reduce field fabrication and shipping costs.

They manufacture aluminum and steel trays with built-in mounting systems and in-house powder coating for custom finishes. Other major US manufacturers include Eaton (Cooper Crouse-Hinds division), Legrand, Thomas & Betts, and Southwire, all providing a variety of steel, aluminum, and fiberglass cable trays for industrial, commercial, and residential applications.

Materials and Standards

American overhead cable trays are produced from high-quality steel, aluminum, fiberglass, and PVC-coated materials, ensuring durability, corrosion resistance, and compliance with industry standards. Most trays adhere to NEMA VE-1 standards and are UL certified, guaranteeing safety and reliability in electrical installations. Applications and AdvantagesUS-made cable trays are used in construction, energy, telecommunications, and industrial sectors.

Advantages include: Customizable designs to meet specific project requirementsEnhanced airflow and heat dissipation in wire basket traysEase of installation with pre-punched holes, self-splicing bars, or built-in mounting systemsCompliance with Buy America and Buy American regulations for government and infrastructure projects SummaryAmerican overhead cable tray production is robust, with a diverse range of manufacturers offering innovative, high-quality, and standards-compliant solutions. Companies like Atkore, MP Husky, and Snake Tray lead the market, providing steel, aluminum, fiberglass, and wire basket trays suitable for a wide array of industrial, commercial, and utility applications, while ensuring compliance with NEMA and UL standards and supporting domestic manufacturing initiatives.
