Bulgarian Fiber Optic Cable Junction Box Base

Overview

By year''s end Cable Com has gained acceptance as a leading supplier and cable installer to the Bulgarian state officials, petrochemical and energy markets.

Key Takeaways

Bulgarian fiber optic cable junction box bases are available from local manufacturers like JV Electric, Tilcom, and Cimler, offering high-quality, waterproof, and dustproof solutions for telecom and industrial networks. Manufacturers and SuppliersJV Electric Ltd. is a Bulgarian manufacturer specializing in junction boxes suitable for surface mounting and terminals. Their products comply with the Bulgarian national standard, are made from high-quality materials, and are designed for easy installation, waterproofing, and dustproofing.

They support networks with AC up to 690V and offer terminals for cables up to 10 square millimeters, making them suitable for residential, commercial, and industrial applications. Tilcom Ltd. has been a trusted supplier in Bulgaria since 1999, providing cables, cable accessories, and optical cable components. They offer adapter plates compatible with cable rollers, which can be integrated with fiber optic junction boxes for efficient network deployment.

Cimler Ltd. focuses on fiber optic cables and related infrastructure. Their products include indoor and outdoor optical cables, flat drop, self-supported, armored, and flexible models. While primarily a cable manufacturer, their solutions are compatible with junction boxes for FTTH, broadband, industrial, and telecom applications.

A Group Bulgaria provides system integration services and can assist with the design and delivery of fiber optic networks, including junction box installation in harsh environments.

Key Features to Consider

Material and Durability: Ensure the junction box is made from high-quality, UV-resistant, and corrosion-resistant materials. Protection Rating: Look for IP65 or higher for waterproof and dustproof protection. Cable Compatibility: Check the maximum cable diameter and terminal capacity.

Installation Type: Surface-mounted or wall-mounted options depending on network layout. Standards Compliance: Products should meet Bulgarian national standards and international telecom requirements.

Conclusion

For Bulgarian fiber optic networks, JV Electric is a primary manufacturer of junction box bases, while Tilcom and Cimler provide complementary components and cables. These companies ensure high-quality, durable, and standards-compliant solutions suitable for residential, commercial, and industrial fiber optic installations.
