# Distribution Box Sheet Metal Color

## Overview

OEM Sheet Metal Distribution Box Choose from 50+ customizable configurations: wall-mounted, modular, explosion-proof, or outdoor-rated boxes. Optimize cabl.

## Key Takeaways

Sheet metal distribution boxes are typically powder-coated in standard colors like light grey (RAL7035) but can be customized in various RAL shades or branded colors.

### Standard and Custom Colors

Most sheet metal distribution boxes are finished with durable powder coatings that protect against dust, dirt, and mechanical impacts. The standard color for many indoor enclosures is light grey (RAL7035), which provides a neutral, professional appearance suitable for commercial and industrial settings. Other commonly available colors include black (RAL9005), grey (RAL7032), and a wide range of custom colors to match branding or specific project requirements.

Manufacturers often allow full customization of color, size, and design for OEM or ODM orders.

### Powder Coating Benefits

Powder coating is a high-performance polyester finish applied to cold-rolled or galvanized steel. It offers: Enhanced corrosion resistanceScratch and impact protectionUniform, long-lasting colorCompatibility with indoor and outdoor environments (depending on IP rating) Some enclosures also undergo phosphating, which improves paint adhesion and provides mild corrosion protection before the powder coating is applied.

### Material and Finish Options

Distribution boxes can be fabricated from cold-rolled steel, stainless steel, or aluminum, with powder coating applied to all surfaces. Outdoor-rated boxes often feature IP65 or IP66 protection, ensuring water and dust resistance while maintaining the integrity of the coating. Custom finishes, including textured or glossy coatings, are available depending on manufacturer capabilities.

### Customization and Applications

Manufacturers provide full customization, including: Color selection from RAL or custom palettesSize and thickness adjustmentsCutouts, mounting plates, and accessoriesBranding or logo printing These options make sheet metal distribution boxes suitable for industrial control systems, commercial buildings, data centers, and outdoor electrical installations. In summary, sheet metal distribution boxes offer flexible color options, with light grey (RAL7035) as standard, and a wide range of custom colors available through powder coating, ensuring both durability and aesthetic compatibility with the installation environment.
