FC fiber optic patch cord cost

Overview

Fiber Optic Patch Cord Find here Fiber Optic Patch Cord, Fiber Cable manufacturers, suppliers & exporters in India. Get contact details & address of compan.

Key Takeaways

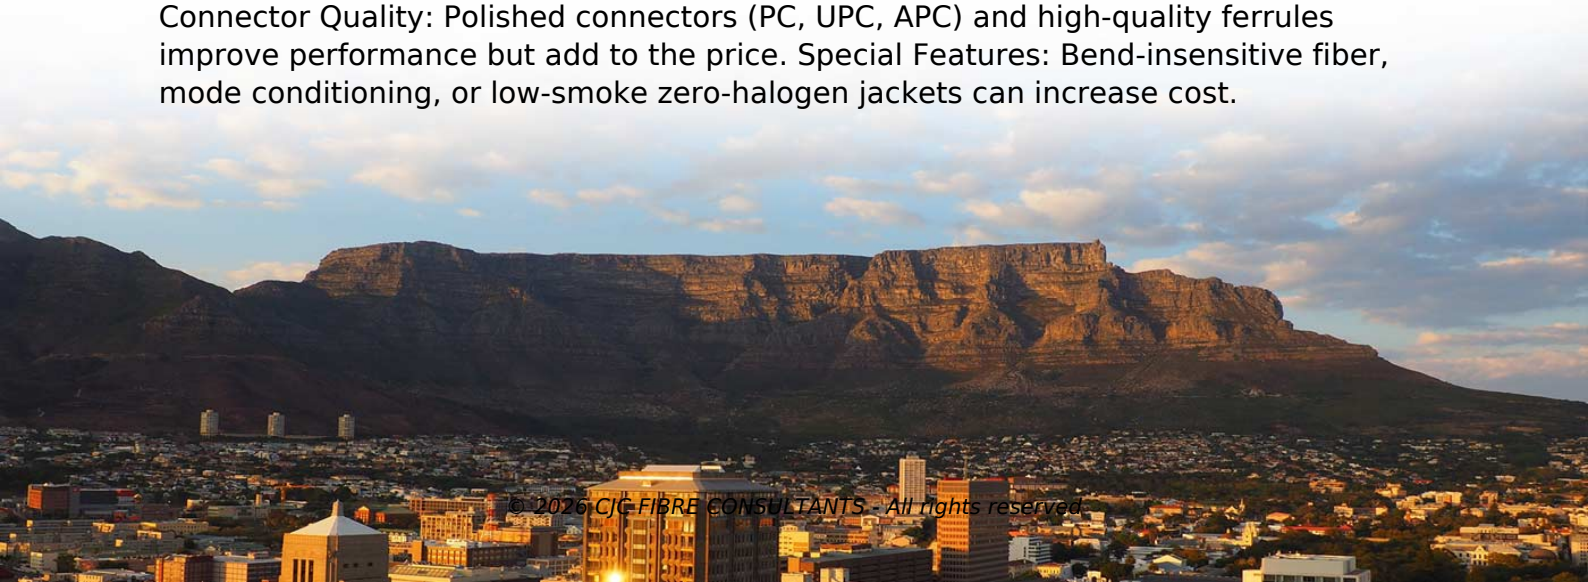

FC fiber optic patch cords typically range from $10 to $50 per unit depending on length, mode, and quality. OverviewFC (Ferrule Connector) fiber optic patch cords are widely used in single mode and multimode networks for high-precision connections. They are available in simplex or duplex configurations, with cable diameters commonly 2.

0mm or 3. 0mm, and can feature OFNR, LSZH, or plenum-rated jackets for different installation environments.

Factors Affecting Price

Cable Type: Single mode (9/125 µm) cords are generally more expensive than multimode (50/125 µm or 62. 5/125 µm) due to lower attenuation and higher precision requirements. Length: Standard lengths (1–5 meters) are cheaper, while custom lengths or very long runs increase cost.

Connector Quality: Polished connectors (PC, UPC, APC) and high-quality ferrules improve performance but add to the price. Special Features: Bend-insensitive fiber, mode conditioning, or low-smoke zero-halogen jackets can increase cost.

Typical Price Range

Short single mode FC-FC patch cords (1–2 meters): $10–$20 eachMedium length (5–10 meters): $20–$35 eachLong or custom configurations: $35–$50 or more per cord Vendors and AvailabilityPolyPhaser offers FC-FC single mode patch cords with functional testing and custom lengths available. Fiber4u and FS.com provide a wide range of FC patch cords, including OM4 multimode and bend-insensitive options, with immediate delivery for standard lengths. FiberOptics4Sale lists pre-terminated FC connectors with various cable types and polishes.

When purchasing, it is recommended to confirm the exact specifications, length, and connector type with the vendor, as these factors significantly influence the final price.
