Fiber Optic Cable Stripping Tool

Overview

Fiber Stripping ToolsJonard Tools manufactures a large range of fiber optic stripping tools specifically designed for technicians in the fiber optics indus.

Key Takeaways

Fiber optic cable stripping tools are precision instruments designed to remove jackets, buffers, and coatings from optical fibers without damaging the delicate glass core.

Overview

Fiber optic stripping tools are essential for preparing fibers for splicing, termination, or connectorization. They allow technicians to expose the bare glass fiber while maintaining the integrity of the fiber, which is critical for signal quality and long-term reliability. Tools vary depending on the fiber type, coating thickness, and cable diameter.

Types of Fiber Stripping Tools1. Mechanical Strippers These are handheld tools with precision blades that remove coatings or jackets. They are available for different fiber diameters, such as 250 µm coatings, 900 µm tight buffers, and larger cable jackets (up to 40 mm diameter).

Examples include Jonard Tools' JIC-1022 for 2–3 mm jackets and CST-4000 for large round cables. Mechanical strippers are widely used for standard telecommunication fibers and specialty fibers. 2.

Thermal Strippers Thermal or hot knife strippers use controlled heat to soften the coating for easy removal. They are particularly useful for heavy-duty cables or when precise stripping is required without nicking the fiber. 3.

Automated or Programmable Stripping Machines For high-volume or industrial applications, programmable machines like the Schleuniger B300 provide consistent, precise stripping of multiple fibers with minimal manual effort. 4.

Multi-

Purpose Kits Kits such as Thorlabs' TSK1 include multiple blade sets, fiber guides, and jacket strippers, allowing technicians to handle a variety of fiber diameters and coatings in one compact case.

Key Features to Consider

Precision and Calibration: Tools must match the fiber's cladding and coating diameters to avoid damage. Versatility: Some tools allow longitudinal, spiral, or circular cuts for different stripping needs. Ergonomics: Spring-loaded handles and reduced hand fatigue designs improve usability for repetitive tasks.

Durability: High-quality materials and replaceable blades extend tool life. Specialized Functions: Some tools include bare fiber grippers to prevent microfractures during handling.

Applications

Splicing and Termination: Clean stripping ensures proper fusion or mechanical splicing. Connectorization: Accurate buffer removal is critical for connector installation. Fiber Bragg Gratings and Specialty Fibers: Window stripping or partial coating removal is possible with specialized strippers.

Conclusion

Selecting the right fiber optic stripping tool depends on the fiber type, coating thickness, and application. Mechanical, thermal, and automated options provide flexibility for different project scales, from field installations to industrial production. Investing in high-quality, precise tools ensures consistent, damage-free fiber preparation, which is essential for reliable optical performance.

Article Content

Fiber Stripping Tools

Jonard Tools manufactures a large range of fiber optic stripping tools specifically designed for technicians in the fiber optics industry. Jonard Tools is committed to

Fiber Optic Stripping Tools – trueCABLE

Our fiber optic stripping tools are meticulously designed for clean, consistent results without damaging delicate fibers. With reliable performance and rugged

Fiber Optic Cable Stripping Tools and Equipment

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

Shop our fiber optic cable stripping tools, essential for removing cable jackets, aramid yarn, and buffers to ensure optimal fiber otic performance.

Fiber Strippers – tools, mechanical, thermal, chemical,

Fiber strippers are precision tools that remove a coating from a fiber before connectorization or splicing. There are mechanical, thermal and non-contact

Fiber Optic Termination Tools

These fiber buffer stripping tools provide a quick, easy, and reliable way to remove the buffer from an optical fiber in preparation for connectorization. A fiber guide

Armored Cable Stripper 8–30mm for FTTH Fiber Optic on OnBuy

Armored Cable Stripper 8–30mm for FTTH Fiber Optic Description 1. Wide Application: This wire stripper is a professional cutting tool for armored fiber optic cable sheaths, which can be used for

Fully Automatic Fiber optic cable cutter 450X Price & Datasheet

Fully Automatic Fiber optic cable cutter 450X Automatic cable cutting machine is for cable cutting winding,measuring.The advantage of this machine is : middle suspended, Length and speed setting

Fiber and Cable Stripper – Types, Uses & Guide

Fiber & Cable Stripper for Fiber Tools 1. FOS03 Fiber strippers remove the coating from the fiber optic cable to expose the glass fiber. Also

Fiber Optic Tools | Fiber Optic Cleaning | trueCABLE

Fiber optic installation and cleaning tools for LC, SC, ST, FC, and MTP/MPO connectors. Cleaning, cutting, and stripping tools. Performance-tested and backed by Forever Warranty.

7 Best Fiber Optic Termination Kit | End-Face Flat

Whether you are terminating drop cables for FTTH builds or prepping pigtails in a data center, the best fiber optic termination kit must combine a high-precision

TREND Networks Stripping Tool for Fiber Optic Cables, R301-SHEAR

Buy TREND Networks Stripping Tool for Fiber Optic Cables, R301-SHEAR-KEVLAR or other Fibre Tester Accessories online from RS for next day delivery on your order plus great service and a great

Fibre Optic Termination Techniques – Wray Castle

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

Introduction to Fibre Optic Termination Fibre optic termination is the process of preparing the end of a fiber optic cable so it can connect to network equipment, another cable, or a patch

Fiber Optic Cable Stripper, Horizontal Cutting & Longitudinal ...

Dual-Mode Stripping Capability: Unlike basic strippers, this Fiber Optic Cable Stripper combines horizontal cutting and longitudinal slitting in one tool — the circular blade enables controlled slit-and

EFT-3STRIP

EFT-3STRIP SCP-EASYFIBER® THREE-HOLE JACKET/COATING STRIPPER – 1EA The SCP-EasyFiber Three-Hole Jacket/Coating stripper is a professional-grade tool for preparing fiber optic

KKmoon Fiber Optical Thermal Stripper Rechargeable Heated Fiber Cable ...

Efficient Multitasking: This fiber optic stripper allows simultaneous stripping of up to 48 bare fibers, significantly speeding up workflow for fiber optic stripping. The tool handles ribbon cables, loose

FTS-01 Fiber Optic Drop Cable Stripper, Butterfly Drop Cable

FTS-01 Fiber Optic Drop Cable Stripper, Butterfly Drop Cable Stripping Tool for 2.0/3.0mm Fiber Optic Butterfly Drop Cable : Amazon : Home Improvement ^ Creating a new Afterpay account or

Fiber Optics | Connectivity and Tools | Shop trueCABLE

Shop performance-tested fiber optic cables, patch cables, pigtails, and tools. Certified to industry standards with Forever Warranty. Free shipping on orders over $449.99.

TREND Networks Stripping Tool for Fiber Optic Cables, R301-STRIP ...

Buy TREND Networks Stripping Tool for Fiber Optic Cables, R301-STRIP-THERMAL . Browse our latest Fibre Tester Accessories offers. Free Next Day Delivery available.
