Fiber optic SC model

Overview

Differences Between ST, SC, FC, and LC Fiber Learn the differences between ST, SC, FC, and LC fiber connectors. Explore connector types, PC/UPC/APC polish.

Key Takeaways

The SC (Square Connector) fiber optic connector is a widely used push-pull connector with a 2. 5 mm ferrule, commonly applied in enterprise, telecom, and FTTH networks.

Overview and Structure

The S

C connector features a square-shaped housing with a push-pull latch mechanism, making it easy to insert and remove while maintaining secure connections in patch panels and devices ( ). It uses a 2. 5 mm ferrule to align the fiber precisely, ensuring low insertion loss and minimal reflection.

Inside the connector, a spring mechanism helps maintain proper contact with the mating adapter, and a “twang” sound often indicates a successful connection ( ).

S

C connectors are available in UPC (Ultra Physical Contact, blue) and APC (Angled Physical Contact, green) polish types, which affect return loss performance ( ). ApplicationsSC connectors are widely used in: Enterprise networks and data centers for patch panels and switchesFTTH (Fiber to the Home) installationsCATV networks and legacy industrial systemsGigabit Ethernet and telecom applications ( )They are valued for their low cost, mechanical stability, and ease of use, although they have a larger footprint compared to LC connectors ( ).

S

C connectors are often paired in SC-SC patch cords for single-mode or multimode fibers, and hybrid assemblies like LC-SC are used for device compatibility ( ). 3D Models and CAD ResourcesFor engineering, design, or prototyping purposes, SC connector models are available in various CAD formats such as SOLIDWORKS, Inventor, CATIA, STEP, STL, IGES, DWG, and DXF ( ). These models allow designers to integrate SC connectors into optical distribution frames, enclosures, or custom assemblies for simulation and layout planning.

Key Considerations

Fiber mode: Single-mode (OS2) or multimode (OM3/OM4/OM5)Cable geometry: Simplex or duplex, with jacket diameters typically 0. 9 mm, 2. 0 mm, or 3.

0 mmPolish type: UPC for general use, APC for high return loss applicationsInsertion loss and return loss: Proper assembly and inspection are critical to minimize optical signal degradation ( )SC connectors remain a reliable and cost-effective choice for maintaining existing infrastructure and are still widely used despite the rise of smaller connectors like LC in high-density environments.

Article Content

Differences Between ST, SC, FC, and LC Fiber

Learn the differences between ST, SC, FC, and LC fiber connectors. Explore connector types, PC/UPC/APC polish, single-mode vs multi-mode

SFP Fiber Optic Connector Types: LC, SC, MPO Explained

Explore common SFP fiber optic connector types, including LC, SC, and MPO/MTP. Learn their differences, use cases, and compatibility.

SC/APC Fiber Optic Adapter: A Beginner''s Guide

An SC/APC fiber optic adapter is a passive mechanical interface used to join two SC connectors that have angled physical contact (APC) ferrules,

Optic fiber connectors: 3D models

Discover all CAD files of the "Optic fiber connectors" category from Supplier-Certified Catalogs SOLIDWORKS, Inventor, Creo, CATIA, Solid Edge, autoCAD, Revit and many more CAD software

Fiber Connector Types: A Comprehensive Guide 2025

The SC connector is one of the earliest and most enduring types in the fiber optic world. Known for its square shape and push-pull coupling, SC is

LC vs SC Fiber Connectors: Key Differences and

Among the most common connectors are LC and SC types, each designed for specific needs and environments. This article delves into the

Fiber Optic Connector Types: SC, LC, ST, FC, MTP/MPO | Weunion

The Subscriber Connector (SC) features a rectangular body with a push-pull latching system, making it one of the most widely adopted connectors in telecom and data center environments.

LC vs SC Fiber Connector – Key Differences Explained

Explore LC vs SC fiber connector types to understand their uses, benefits, and compatibility in fiber optic network setups.

SC Fiber Optic Connectors

SC Fiber Optic Connectors are used for equipment cross-connects or interconnects in backbone, horizontal and work area applications. SC connectors are recommended by TIA/EIA-568-B.3 at the

Fiber Optic Products – Fiber Optic lighting for Pool, Spa, Landscape ...

Welcome to Fiber Optic Products. We carry a full line of Plastic Optical Fibers for all your lighting projects from Pools, Landscapes, Hobbies, Crafts, Interior Home Lighting, Models, Educational and

Hj-fiber Customized SC Flange Fiber Optic Coupler

This 2024 model SC port adapter custom flange fiber optic coupler ensures stable network connections in carrier grade equipment using a high-precision SC interface.

SC/APC Fiber Optic Connector – Low Insertion Loss, FTTH Compatible

High-performance SC/APC fiber connector with push-pull design, 8° angled polish for low back reflection, ideal for FTTH/PON networks. Includes dust cap protection.

Linkedpro EF-200-SC 656ft Single-Mode Fiber Optic Cable SC-SC

Linkedpro EF-200-SC 656 ft (200 m) Single-Mode Fiber Optic Cable Drum / SC-SC Duplex. Buy genuine Linkedpro today - factory warranty, fast US shipping.

Optical Communications Products

Browse our optical communication connectivity products designed to help you enable your communication networks. Easily create a bill of materials list.

AFL FR-OM2-150-USC-USC MM OM2 50um OTDR Fiber Ring SC-SC

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

Overview The AFL FR-OM2-150-USC-USC Fiber Ring is an OTDR launch cable designed for testing multimode fiber optic links. It features 150 meters of OM2 50µm multimode fiber, allowing users to

Mini Wall Mount Fiber Terminal Box ODF

Highlights at a glance 4 Ports Design: Efficiently manage up to 4 fiber optic connections for seamless connectivity. ODF Compatibility: Supports various adapters including SC/FC/ST/LC for diverse

SC UPC Simplex Single Mode Indoor Fiber Optic Patch Cord Optical Fiber ...

High-quality SC UPC connector ensures stable signal transmission. Single mode design minimizes signal loss, suitable for long-distance communication. Simplex structure for easy installation and

Our 10 Best Fiber Opticcable in the US

Fibershack - 3M / 10ft Fiber Optic Internet Cable & Connector - SC/APC to SC/APC - White - FTTH Home Fiber Internet Replacement Cable for Residential Optical Networks Check Price
