Fiber optic cable with patch cord

Overview

A Uniboot fiber patch cord is an innovative fiber optic cable that integrates two optical fibers into a single compact cable, with Uniboot connectors on both ends. Designed to maximize space utilizati...

Key Takeaways

A fiber optic patch cord is a fiber optic cable terminated with connectors on both ends, designed for flexible, short-distance connections between devices in optical networks. What is a Fiber Optic Patch Cord? A fiber optic patch cord (also called a fiber jumper or fiber patch cable) is a section of optical fiber cable with connectors fixed at both ends, allowing two fiber devices to communicate.

Unlike backbone or trunk cables, patch cords are designed for flexible, short-distance interconnections within networks, such as connecting servers to switches, patch panels to equipment ports, or cross-connecting fiber routes in data centers and laboratories. Structure of a Patch CordA typical patch cord consists of: Optical fiber: Single-mode (SM, OS1/OS2) for long-distance, low-attenuation transmission, or multimode (MM: OM1/OM2/OM3/OM4/OM5) for short-distance, high-bandwidth applications. Connectors: Standardized connectors such as SC, LC, FC, ST, MPO, MU, MT-RJ, or E2000 are attached at both ends to ensure reliable mating with devices.

Strength member: Often aramid yarn (Kevlar) is included under the jacket to provide mechanical protection and durability. Outer jacket: Made from materials suitable for the installation environment, including PVC for indoor use, LSZH for low-smoke applications, or armored jackets for outdoor protection.

Types of Patch Cords

Patch cords can be classified by: Fiber type: Single-mode (yellow jacket) or multimode (OM1/OM2 orange, OM3 aqua, OM4 violet, OM5 lime green) depending on distance and bandwidth requirements. Cable configuration: Simplex (one fiber, unidirectional) or duplex (two fibers, bidirectional) for transmitting and receiving data simultaneously. Application environment: Indoor, outdoor, or drop cables.

Outdoor patch cords may include armor, waterproofing, or self-supporting features, while indoor cords are designed for controlled environments.

Applications

Fiber optic patch cords are widely used in: Data centers: Intra-rack and inter-rack connections, cross-connects, and structured cabling. Telecommunications: Connecting optical transceivers, switches, and patch panels.

FTT

H (Fiber to the Home): Indoor-outdoor transition cables connecting outside plant to customer premises. Laboratories and testing: Connecting light sources, OTDRs, and measurement equipment.

Summary

Converting a fiber optic cable into a patch cord involves terminating the fiber with connectors on both ends, adding mechanical protection, and selecting the appropriate fiber type, jacket, and connector for the intended application. Patch cords are essential for flexible, reliable, and short-distance optical connections in communication networks, data centers, and laboratory setups.

Fiber Optic Patch Cord

Fiber Optic Patch Cord In this category, you will find various duplex and simplex LC/SC/FC/ST/Uniboot LC/MDC fiber optic patchcords, which are used to

Optical Fiber & Fiber Patch Cables

For use in the mid-IR spectral range, we offer single mode and multimode fluoride optical fiber manufactured in-house, as well as patch cables and other

Fiber Optic Products Brand, Network Cabling Solutions Suppliers ...

Gcabling | Network Infrastructure Solutions & Products Supplier - Fiber Optic Cable, RJ45 Cable, Patch Cord, connectors & Network Cabinet etc. The Products are certified by UL/ETL/VDE/SGS testing

Fiber Optic Cable Assemblies | Fiber Patch Cords and Fiber Jumpers ...

Corning offers the most complete line of connectors and factory-terminated cables, from single-fiber patch cords to high-fiber-count assemblies.

Multimode Fiber Optic Patch Cables

In addition to our stocked multimode patch cables, we offer a custom fiber optic patch cable service with many options eligible for same-day shipment. Please contact Tech Support for assistance selecting

HOLIGHT Fiber Optic Manufacturer in China | Patch Cords

HOLIGHT is a global fiber optic manufacturer in China, providing patch cords, adapters, terminal boxes and FTTH solutions for worldwide telecom projects.

Fiber Optic Drop Cable Assembly Toneable Flat Drop Cable Patch Cord ...

High quality Fiber Optic Drop Cable Assembly Toneable Flat Drop Cable Patch Cord FTTA Corning Opti-Tap Waterproof Patch Cord from China, China''s leading product market Fiber Optic Drop Cable

Fiber Patch Cables – fiber-optic patch cords,

Fiber patch cables are a protected and connectorized fiber-optic cable, mostly used for short-distance connections e.g. in telecom installations.

All Kinds of Fiber Optic Patch Cords – SC, LC, FC, ST Explained

Learn about SC, LC, FC, and ST fiber optic patch cords, their uses in FTTH, telecom, and data centers, and how to choose the right type.

High-Performance Fiber Patch Cables

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

High-performance multimode and singlemode fiber patch cables. OM3, OM4, OS2 options. Low insertion loss, supports up to 400G. Fluke Versiv verified. Forever Warranty.

Fiber Patch Cables Explained 2025: Types, Connectors,

Choosing the wrong type of patch cable can cause signal loss, downtime, or higher costs. This guide explains what fiber patch cables are, their

High-Performance Fiber Patch Cables

High-quality connectivity to empower your network with our fiber patch cables. These high-speed connectivity solutions are engineered to deliver superior

Optical Fiber & Fiber Patch Cables

In addition to our stocked fibers and patch cables, we offer a custom fiber optic patch cable service with many options eligible for same-day shipment. Please

Fiber Optic Patch Cables | Fibertronics, Inc.

Fiber Optic Patch Cables Fibertronics Inc. offers a wide selection of high-quality fiber optic patch cables, with many models in stock and available for immediate

Amazon : Fiber Optic Patch Cables

30 Meters SC/APC to SC/APC Fiber Optic Internet Cable, Armored Single Mode Patch Cable, Fiber Optic Jumper Optical Patch Cord - SIMPLEX - 9/125um - OS1/OS2 Compatible, LSZH White
