Fiber optic distribution frame with 288 cores

Overview

Qualfiber supplies Fiber Optic Distribution Frame or Optical Patch Panel. Our rack mount ODF is in 3U designed and sliding structure.

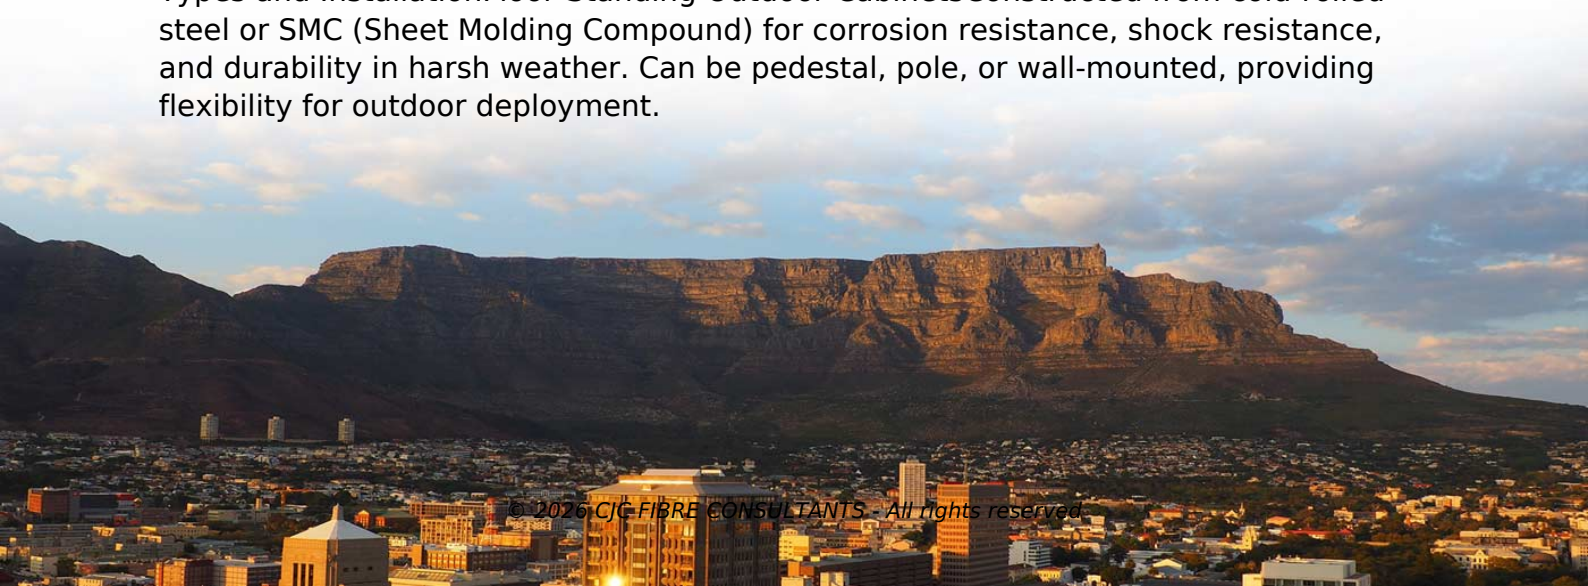

Key Takeaways

A 288-core fiber optic distribution frame (ODF) provides high-capacity fiber management for both indoor and outdoor network deployments, supporting splicing, patching, and cross-connect functions.

Overview

A 288-core ODF is designed to handle large-scale fiber networks, offering a centralized point for connecting backbone cables, distribution cables, and optical patch cords. These frames are suitable for FTTH (Fiber to the Home), data centers, telecom networks, and high-density optical systems. They allow for both direct connections and cross-connections, facilitating efficient fiber management and maintenance.

Types and InstallationFloor-Standing Outdoor CabinetsConstructed from cold-rolled steel or SMC (Sheet Molding Compound) for corrosion resistance, shock resistance, and durability in harsh weather. Can be pedestal, pole, or wall-mounted, providing flexibility for outdoor deployment.

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

Supports F

C, SC, or mixed connector types and accommodates multiple splice trays for fiber organization. Ideal for carrier-grade outdoor networks with high reliability requirements.

Rack-

Mounted ODFsTypically 19-inch subracks with 3U or 4U height, integrating over-length trays and cable routing for up to 288 fibers. Suitable for indoor environments like data centers or central offices.

Supports S

C, LC, FC, ST, and E2000 connectors, with easy maintenance and expansion options. Often pre-terminated and factory-tested for quick deployment.

Key Features

High Capacity: 288 cores allow for large-scale fiber management and future network expansion. Durable Materials: Cold-rolled steel or SMC ensures resistance to corrosion, pressure, and environmental stress. Flexible Configuration: Supports multiple splice trays, patch panels, and connector types for diverse network needs.

Ease of Maintenance: Designed for convenient fiber alignment, secure fastening, and grounding protection. Environmental Protection: Outdoor models provide high resistance to climate changes and extreme conditions.

Applications

Telecommunication Networks: Backbone and access network distribution.

FTT

H Deployments: Connecting subscriber lines to central distribution points. Data Centers: High-density fiber patching and cross-connects.

CAT

V, Video, and Multimedia Networks: Efficient fiber routing and management.

High-

Density Network Architectures: Supports gigabit Ethernet, ATM, and parallel optical interconnects.

Summary

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

A 288-core fiber optic distribution frame is a versatile solution for managing large fiber networks, offering high capacity, durability, and flexible installation options. Whether deployed outdoors as a floor-standing cabinet or indoors as a rack-mounted ODF, it ensures efficient fiber management, easy maintenance, and reliable network performance.

Fiber Optic Patch Panel 3U 4U 19 Inch 288 Cores ODF

Qualfiber supplies Fiber Optic Distribution Frame or Optical Patch Panel. Our rack mount ODF is in 3U designed and sliding structure.

ODF 288 Cores

Shop our ODF 288 cores products for high-density fiber optic patch panels and cabinets. Ideal for data centers and FTTH networks. Bulk orders welcome.

288-core LC

288-core LC ODF optical fiber fusion distribution unit box, also known as ODF distribution box, is used for optical cable introduction, fixing and protection, optical cable terminal and pigtail splicing, 288

4U Rack Mount Optical Distribution Frame ODF 144

UnitekFiber supplies Fiber Optic Distribution Frame or Optical Patch Panel. Our rack mount ODF is in 4U designed and sliding structure. It is made of cold-rolled steel

Outdoor Floor standing optical distribution frame cabinet up to 288 ...

Outdoor Floor standing optical distribution frame cabinet up to 288 core capacity Ref. OD8E288 Fiber optic cross connect cabinet is an outdoor optical equipment that is especially designed for outdoor

288 Fibers ODF 19" Floor Mount Distribution Box FITB-ODF-288-FM

Fiberinthebox 19" ODF floor mount can be installed on standard 19" chassis and currently being widely used in optical fiber distribution frames. Customer''s special requirements are welcomed.

Fiber Termination Box: 8-96 Cores, IP65/IP68 Protection

Discover Fiber Termination Box, supporting 8-96 cores with IP65/IP68 protection for durable and versatile installations. Order now for unmatched reliability!

Fiber Distribution Cabinet
