Finnish Optical Cable Duct Manufacturer

Overview

It is easy to organize the numerous wires in a modern home in a stylish and convenient way. The cable box makes it easy to clean the wires and cables away from the legs.

Key Takeaways

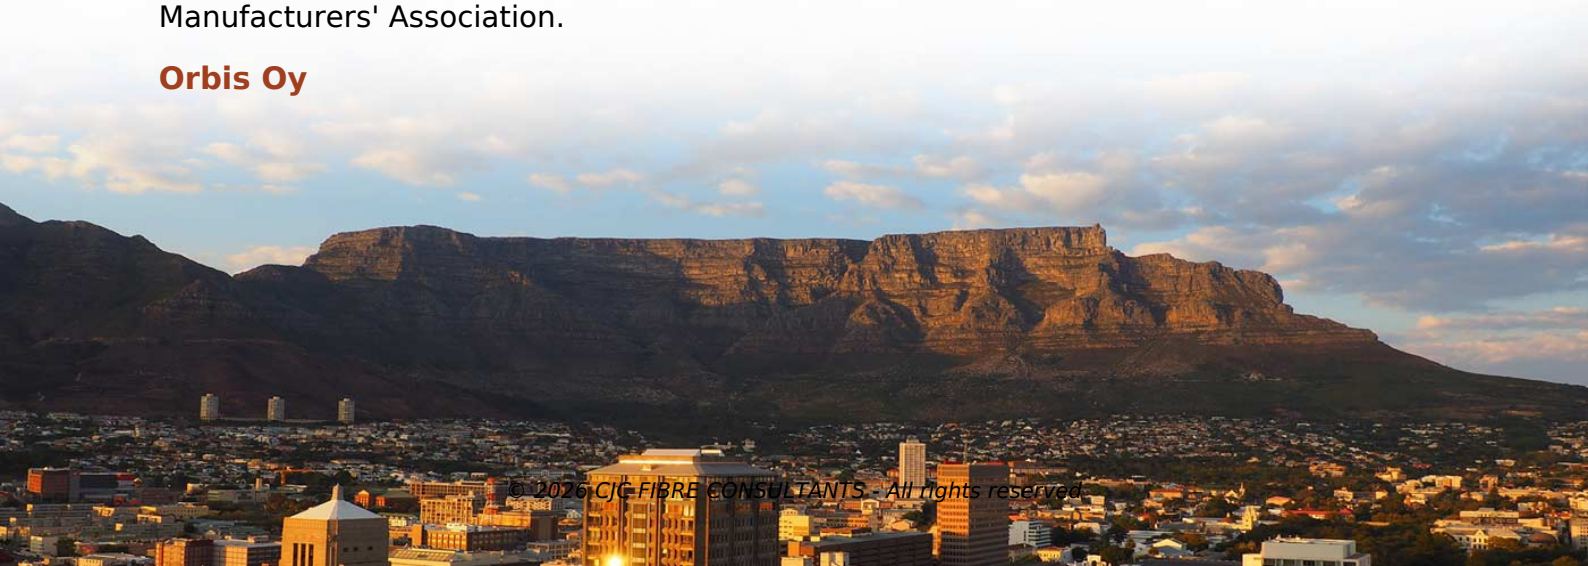

Key Finnish manufacturers of fiber optic cables and ducts include Nestor Cables, Orbis Oy, and Naficon, each offering specialized solutions for telecommunications and industrial applications.

Nestor Cables

Nestor Cables, based in Finland, develops and manufactures fiber optic and copper telecommunications cables, as well as industrial and instrumentation cables for data centers, oil refineries, and border control systems. Their product range includes fiber optic cable accessories and installation materials under the NesCon brand. Nestor operates a production plant in Oulu, producing 60,000 to 80,000 kilometers of cable annually, and serves markets in Europe, the Baltics, the USA, and the Middle East and East Africa.

The company employs around 100 people and is a member of Europacable, the Cable Manufacturers' Association.

Orbis Oy

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

Orbis Oy specializes in custom-made fiber optic cables, connection boxes, panels, and cabinets for building internal networks and industrial applications. Their production emphasizes high-quality, pre-assembled fiber optic solutions, which can reduce cabling costs by up to 40%. Orbis also manufactures hybrid cables combining fiber optics and copper for power and data transmission, and provides tools and equipment for fiber optic installation.

Their production plant in Saue, Estonia, supports flexible and rapid delivery of both small and large quantities.

Naficon

Naficon, located in Nauvo, Finland, focuses on Passive Optical Network (PON) products, including pigtails, patch cords, and multifiber cables with SC, LC, FC, and ST connectors. They offer ready-made connectors with UPC or APC polishing and have expanded internationally with a subsidiary in Dubai (NFOM), which mirrors the Finnish production standards. Naficon emphasizes quality, flexibility, and continuous skill development, maintaining ISO 9001 certification for their production processes.

Summary

These Finnish companies provide a comprehensive range of fiber optic solutions, from cables and ducts to accessories and pre-assembled systems. Nestor Cables is notable for large-scale production and international reach, Orbis Oy for customized and hybrid solutions, and Naficon for PON-focused products and ready-made connectors. Collectively, they represent Finland's strong capabilities in fiber optic infrastructure and telecommunications technology.
