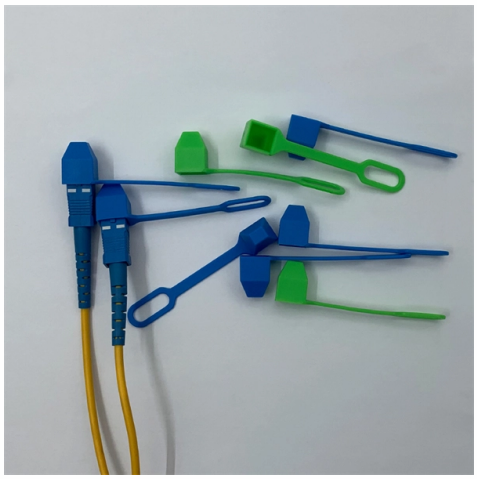
Galvanized trough-type fully enclosed cable trays



Overview

A galvanized steel trough cable tray is a durable and corrosion-resistant solution for organizing, supporting, and protecting electrical cables in commercial, industrial, and infrastructure environments. Product Introduction Our company offers a comprehensive range of products, including junction cable. The inner wall is smooth and has excellent insulation, making it perfectly suitable for high-end decoration projects. The design achieves efficient heat dissipation and lightweight, reducing the weight by 30%, which can significantly improve construction and maintenance efficiency. High Protection. Oil Industry, Electric Power, Lght Industry, Telecommunications etc. professional cable routing systems. It can be used for laying fully enclosed cables.

Article Content

China Customized Trough Cable Tray Manufacturers

We''re professional trough cable tray manufacturers and suppliers in China, specialized in providing high quality products and service. We warmly welcome

Hot-dip Galvanized Trough-Type (Enclosed) Cable Tray

Hot-dip Galvanized Trough-Type (Enclosed) Cable Tray High Protection Rating: Completely isolates dust, moisture, oil contamination, and external mechanical damage, providing the most
