How much does a Venezuelan mesh cable tray cost

Overview

Explore a wide range of our Wire Mesh Cable Tray selection. Find top brands, exclusive offers, and unbeatable prices on eBay. Shop now for fast shipping and easy returns!

Key Takeaways

Venezuelan wire mesh cable trays typically cost between $2 and $25 per meter, depending on material, size, and finish. The price of a mesh cable tray in Venezuela depends on several factors: Material: Galvanized steel is the most common and cost-effective option, stainless steel is more expensive due to corrosion resistance, and aluminum is lightweight but pricier. Plastic trays are cheaper but not suitable for heavy loads.

Type and Size: Wire mesh (basket) trays are generally the most affordable compared to ladder or perforated trays. Widths can range from 50mm to 600mm, heights from 50mm to 100mm, and lengths from 1m to 2. 5m.

Finish and Coating: Pre-galvanized trays are cheaper but less durable, hot-dip galvanized (HDG) trays cost more but resist corrosion better, and powder-coated trays offer additional protection and color options. Bulk Orders: Purchasing in large quantities can significantly reduce the per-meter cost, especially for industrial or infrastructure projects. Installation and Accessories: Costs may increase if you include supports, bends, connectors, or require custom sizes.

In practice, a standard Venezuelan wire mesh cable tray for light to medium loads can be expected to cost around $5–$15 per meter, while premium stainless steel or large custom trays may approach $20–$25 per meter. For precise pricing, contacting local Venezuelan suppliers or manufacturers such as VALDINOX or checking B2B marketplaces is recommended, as they can provide quotes based on exact specifications, quantity, and delivery conditions.
