How much does a metal cable tray cost in Hungary

Overview

Cable tray pricing depends on materials, coatings, size, supplier margins, and order quantity —plus hidden costs like shipping and installation.

Key Takeaways

Metal cable trays in Hungary typically range from €15 to €60 per meter, depending on material, size, and customization.

Overview of Pricing

The cost of metal cable trays in Hungary varies based on several factors: Material: Hot-dip galvanized steel trays are common and generally cost between €15–€35 per meter, while stainless steel trays, which offer higher corrosion resistance, can range from €40–€60 per meter. Type and Design: Solid-bottom, perforated, and ladder-style trays differ in price. Ladder trays for heavy-duty power cables are usually more expensive due to higher load capacity.

Dimensions: Wider or deeper trays that support more cables or heavier loads increase the price. Standard widths (100–600 mm) and heights (50–150 mm) affect cost. Customization: Custom lengths, bends, and fittings can add to the overall price.

Suppliers like Brilltech Engineers and Micro Sheet Crafts offer tailored solutions to meet specific industrial requirements. Quantity and Delivery: Bulk orders often reduce the per-meter cost, while urgent or small orders may incur higher prices. On-time delivery and quality assurance are emphasized by local suppliers.

Additional Considerations

Corrosion Resistance: For outdoor or industrial environments, galvanized or stainless steel trays are preferred, which slightly increases cost but ensures durability. Compliance: Ensure the trays meet DIN EN 61537 or equivalent standards for safety and load-bearing capacity. Suppliers: Leading suppliers in Hungary include Brilltech Engineers and Micro Sheet Crafts, both offering modular, high-quality metal cable trays with options for customization and export.

For precise pricing, it is recommended to contact suppliers directly with specifications such as tray type, material, dimensions, and quantity, as prices can fluctuate based on market conditions and customization requirements.
