

How much does a set of finished cable trays from Myanmar cost

Overview

Cable tray pricing depends on materials, coatings, size, supplier margins, and order quantity —plus hidden costs like shipping and installation.

Key Takeaways

The cost of cable tray materials in Myanmar ranges from approximately \$2 to \$25 per meter, depending on material type, coating, and specifications.

Material Types and Pricing

Galvanized Steel: The most common and cost-effective option, balancing durability and price. Pre-galvanized steel is cheaper and suitable for dry indoor areas, while hot-dip galvanized (HDG) steel is more expensive but ideal for outdoor or corrosive environments due to its thick zinc coating. **Stainless Steel:** Higher-priced, used in environments requiring corrosion resistance or hygiene, such as food plants or coastal areas.

Aluminum: Lightweight and rust-proof, more expensive than steel, but reduces installation costs due to lighter weight.

Fiberglass/

Plastic: Budget-friendly and corrosion-resistant, suitable for light loads but not recommended for heavy power cables.

Cost Factors

Tray Type: Ladder trays are more expensive but support heavy cables; wire mesh or perforated trays are cheaper and suitable for lighter loads. **Coating:** HDG and powder-coated trays cost more but offer longer life and corrosion protection. **Size and Length:** Larger or custom-sized trays increase material costs.

Supplier and Quantity: Bulk orders or local suppliers in Myanmar may reduce per-meter costs. **Installation Considerations:** While material cost is a major factor, labor and mounting hardware also affect total project cost. **Estimated Price Range** Low-end (Pre-Galvanized Steel or Plastic): \$2–\$5 per meter Mid-range (Hot-Dip Galvanized Steel or Aluminum): \$8–\$15 per meter High-end (Stainless Steel or specialized coatings): \$20–\$25 per meter For precise pricing in Myanmar, it is recommended to contact local suppliers such as Brilltech Engineers or other certified cable tray manufacturers to get a custom quote based on material, tray type, and project requirements.
