Indonesia Fiber Optic Cable Junction Box 48 Cores

Overview

Beli aneka produk Joint Box 48 Core online terlengkap dengan mudah, cepat & aman di Tokopedia. Kamu bisa menemukan toko penjual Joint Box 48 Core terdekat dari lokasi kamu sekarang.

Key Takeaways

48-core fiber optic junction boxes in Indonesia are available in various designs, including dome and horizontal closures, suitable for indoor and outdoor applications, supporting efficient splicing and subscriber connections.

Overview

A 48-core fiber optic junction box (also called a joint closure or joint box) is a device designed to securely connect and protect multiple fiber optic cables. It provides a safe environment for splicing fibers and managing cable slack, ensuring stable and high-quality signal transmission. These boxes are widely used in FTTH, CATV, LAN, and data communication networks.

Types and Designs

Dome Type: Offers a rounded enclosure, often used for outdoor installations, providing weather resistance and easy access for splicing. Horizontal Type: Typically rectangular, suitable for both indoor and outdoor use, allowing multiple cable entries and organized fiber management. Mini Joint Closure: Compact version for limited space installations, still supporting 48 cores.

Features

Material and Durability: Made from high-quality, weather-resistant materials like PP or IP55-rated housings, ensuring protection against extreme weather and physical damage. Capacity: Supports up to 48 fiber cores, with space for splices, splitters, and SC ports. Some models accommodate 3 splitters, 24 splices, and 24 SC ports.

Installation: Wall-mountable or pole-mountable, with easy access for maintenance and fiber management. Cable Compatibility: Can handle multiple cable diameters and types, suitable for both indoor and outdoor fiber optic networks. ApplicationsFTTH Networks: Connecting subscriber lines to the main fiber backbone.

Data Communication Networks: Ensuring reliable high-speed data transfer.

CAT

V Systems: Distributing television signals over fiber. Outdoor and Indoor Installations: Protecting fiber splices in various environmental conditions. Availability in Indonesia48-core junction boxes are widely available on e-commerce platforms such as Tokopedia, Lazada, Shopee, and Alibaba, offering options for dome closures, mini closures, and horizontal enclosures.

Buyers can choose based on price, delivery options, and seller ratings. Many platforms provide same-day delivery, COD, and installment payment options in Indonesia.

Conclusion

For Indonesian fiber optic projects, a 48-core junction box provides a reliable solution for splicing, protecting, and managing fiber cables. Selection depends on installation environment, space constraints, and network requirements, with multiple options available for purchase online with competitive pricing and delivery services.
