Jdsuotdr Optical Power Meter

Overview

The unique JDSU MTS-5100 is a fiber tester with a range of plug-in modules providing a comprehensive, integrated solution for OTDR and power meters with talk set option testing in one field-rugged instrument. The MTS-4000 is a small, compact and handheld test platform designed for all phases of the network lifecycle, from the installation to the maintenance of Access/FTTx networks and triple-play services. Modular in design, the MTS-4000 offers field service technicians the highest performance and. Large inventory of fiber optic laser light sources, high precision power meters, visual fault locators, OTDR launch boxes, connector inspection microscopes and more. The optical time domain reflectometer (OTDR) is at the core of fiber optic characterization. There are 39 OEM, 34 ODM, 6 Self Patent. Find high quality Jdsu Otdr Suppliers on Alibaba.

Article Content

Optical Testing Jdsu Mts4000V2 OTDR Built-in Vfl, Power Meter /

Our main products include fiber optic fusion splicer, OTDR, test instruments such as optical power meter and other fiber optic tools, which are widely used in telecom, broadband, broadcasting, CATV and

Fiber Optic Testing Equipment

Large inventory of fiber optic laser light sources, high precision power meters, visual fault locators, OTDR launch boxes, connector inspection microscopes and more.
