GeoTel | Fiber Maps and Telecom Data

Their TeleTracker platform and comprehensive telecommunications data give us the tools to accurately map fiber routes, identify critical service gaps, and visualize

Fiber Internet Availability Map

Explore fiber internet availability across the United States. See which providers offer fiber service in your area.

OpenFiberMap — Global Fiber Optic Network Map

Free, open-source, interactive 3D map of the world''s terrestrial fiber optic networks. Browse routes, IXPs, data centers, and landing stations globally.

Fiber Map

Use our interactive fiber map to locate connectivity options for your location. Sites include on-net and near-net fiber lit buildings for all major fiber provider networks, including AT&T, Verizon, Spectrum,

Internet Infrastructure Map (2026)

Explore the physical backbone of the internet with our interactive map of undersea fiber optic cables, peering exchange points, and more. Visualize the growth of global connectivity.

Fiber Data | Lit Buildings | Data Centers | Fiber Maps

FiberLocator gives you access to fiber maps and high quality fiber location data from over 1,000 carriers.

Empowering Connectivity through Broadband Mapping

It offers expert assistance in geospatial technologies, including map visualization of key ICT networks indexes, such as optical fibre networks presence. The map has been updated in 2025

Fiber Internet Availability Map

Availability of fiber internet, regardless of provider, is shown in the map. Change between a map of the max fiber speeds and a map of the number of fiber

The New Broadband Maps Are Finally Here

Today, the FCC is unveiling the pre-production draft of its new broadband maps. These maps provide the best picture available to date of where broadband is and is not available across the
