New Zealand Cable Tray Selection

Overview

Scott Electrical is your local electrical supplies store with an extensive range of products for sale in Auckland and across NZ.

Key Takeaways

New Zealand's latest cable trays include high-performance FRP systems and durable steel trays designed for harsh environments, offering corrosion resistance, lightweight construction, and faster installation.

FR

P Cable Trays (EXduro™ by Treadwell Group)Treadwell Group's EXduro™ FRP cable trays are engineered for New Zealand's and Australia's harsh environments. These trays are lightweight, fireproof, non-corrosive, and resistant to chemicals and UV rays, making them more durable than traditional metal systems. They are available in ladder and solid tray designs, with pre-assembled fittings, pre-drilled straight sections, and both flat and peaked covers for superior water and debris runoff.

The system is designed for a 50-year lifespan, supporting light single wiring and pneumatic tubing systems while enabling faster installation and uninterrupted operation. Steel Cable Trays (Stern and EzyTray)Steel & Tube offers the EzyTray range, providing a full suite of steel cable trays and ladders suitable for all cable containment needs. These trays are compatible with BIM-enabled 2D and 3D CAD designs, allowing precise planning and installation.

Similarly, Stern Cable Trays from Equip Supply are durable, easy-to-install steel trays for commercial and industrial projects, designed to simplify routing and support of electrical and data cabling while reducing installation time.
