New Zealand electrical box installation manufacturer

Overview

Trical is one of New Zealand''s leading suppliers of electrical enclosures and switchboards servicing the electrical industry for over 60 years.

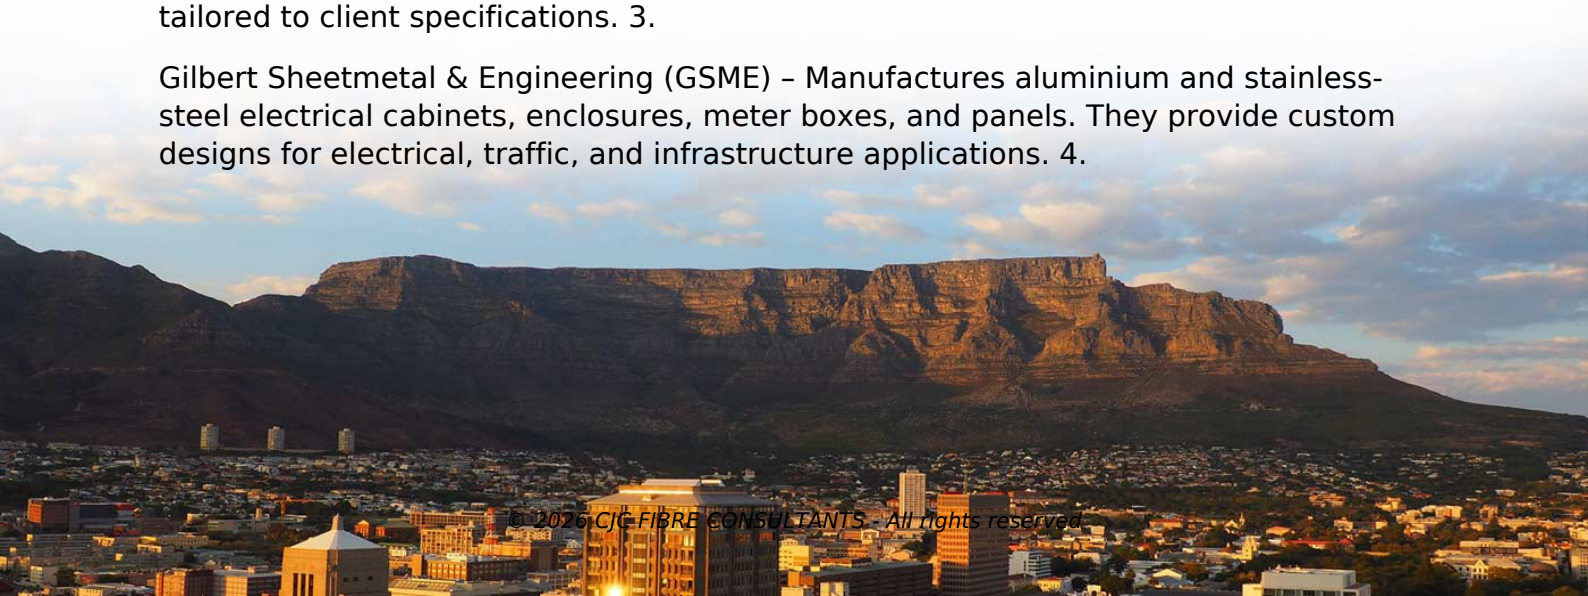

Key Takeaways

New Zealand has a range of specialized electrical box manufacturers offering custom and standard enclosures for industrial, commercial, and residential applications. Leading Manufacturers1. Spectrum – Specializes in sheet metal electrical switchboard enclosures, cabinets, and pillar boxes made from aluminium, mild steel, and stainless steel.

They offer both standard sizes and fully custom designs, including complex builds for industries such as dairy, marine, petrochemical, and infrastructure. 2. Built Boards – Offers IP66 weatherproof enclosures, flush-mounted subboards, and custom switchboards.

Products are designed for harsh outdoor environments and are available in various sizes and materials. Built Boards provides nationwide delivery and custom solutions tailored to client specifications. 3.

Gilbert Sheetmetal & Engineering (GSME) – Manufactures aluminium and stainless-steel electrical cabinets, enclosures, meter boxes, and panels. They provide custom designs for electrical, traffic, and infrastructure applications. 4.

Metcon – Produces Hicks electrical cabinets and enclosures for indoor and outdoor use, with custom sizes and stainless steel options. They have over 40 years of experience serving nationwide clients. 5.

PF

S Engineering – Based in Hamilton, PFS builds custom electrical cabinets and enclosures engineered for New Zealand's toughest conditions. They offer stainless steel, aluminium, and mild steel enclosures for industrial, mining, EV charging, and food processing applications, all fabricated in-house with ISO 9001 certification. 6.

The Electrical Box – Focuses on weatherproof stainless steel and powder-coated mild steel enclosures, including pull boxes, junction boxes, transformer enclosures, and control cabinets. Custom solutions are available to meet specific client requirements. 7.

B&

R Enclosures – A family-owned company producing industrial, data, hazardous area, and residential/commercial enclosures. They provide enclosures, server racks, and switchboard systems with a focus on quality, service, and compliance with AS/NZS 61439 standards. 8.

Thompson Hutton Electrical – Specializes in stainless steel cabinets, control enclosures, and push-button boxes. They offer custom laser cutting up to 4mm and serve industries such as dairy, food processing, automation, and pharmaceuticals. 9.

I

P Enclosures – Supplies steel, stainless steel, and aluminium enclosures for industrial applications, including IP55, IP66, and IP69K-rated products. They provide field cabinets, 19" racks, and climate-controlled enclosures for harsh environments.

Summary

These manufacturers provide a wide range of standard and custom electrical enclosures, including weatherproof, IP-rated, stainless steel, aluminium, and mild steel options. Many offer nationwide delivery, in-house design, and fabrication services, making them suitable for diverse applications from industrial and commercial to residential projects. Depending on your specific needs—such as outdoor durability, IP rating, or custom dimensions—these companies can provide tailored solutions.
