New pricing for multimode fiber optic splicing services

Overview

Total Project Costs: For commercial installations, expect costs ranging from $5,000 to $20,000 per mile for underground projects and from $40,000 to $60,000 per mile for aerial installations. The "per splice" rate is the most. This price is fixed unit cost. 00 per Enclosure Point Travel/Mobilization – Travel/Mobilization will not be charged if the labor for each trip/phase exceeds the minimum labor work as indicated below. High-end models offer advanced features such as automatic alignment and. As networks grow larger, denser, and more complex, fiber optic splicing becomes a critical path activity that directly impacts time-to-light, network reliability, and long-term operating costs. Your fiber splicing and testing partner has to help deploy faster, reduce risk, and protect your network. Our splicing services support both singlemode (OS1/OS2) and multimode (OM1–OM4) fiber types, with splice loss consistently below 0. 1 dB on fusion splices, well within IEEE 802. Cost factors include material.
