North Africa Tray-type Cable Tray Customization Price

Overview

Cable Trays & Accessories – Online ElectricalCable Tray Light Duty 101mm 4Way Crossover Regular price R 238.00 ZAR (inc. VAT) Regular price Sale price R 23.

Key Takeaways

Custom-made cable trays in North Africa typically range from $20 to $150 per meter, depending on material, size, and design complexity.

Factors Affecting Price

Material: Cable trays are commonly made from galvanized steel, stainless steel, or aluminum. Galvanized steel is generally the most cost-effective, while stainless steel and aluminum are more expensive due to corrosion resistance and durability. Type and Design: The main types include ladder trays, perforated trays, ventilated trays, and solid-bottom trays.

Ladder and perforated trays are widely used for industrial applications, and custom designs (e.g., bends, tees, or special widths) increase the cost. Dimensions: Standard widths range from 25mm to 600mm, and lengths are typically 2. 44 meters (8 feet).

Larger or thicker trays (up to 3mm) require more material, raising the price. Customization: Custom-made trays tailored to specific project requirements, including unique bends, supports, or coatings (powder-coated, hot-dip galvanized, or stainless steel), can significantly increase costs.

Estimated Price Range

Basic galvanized steel tray: $20–$40 per meterPowder-coated or perforated tray: $40–$80 per meterStainless steel or heavy-duty custom tray: $80–$150 per meter These prices are indicative and may vary depending on supplier, shipping, and local import duties in North African countries such as Egypt, Morocco, Algeria, and Tunisia. Suppliers and Regional AccessNed-Tech (Nigeria): Supplies galvanized, stainless steel, and aluminum trays with delivery across Africa, including West and Central Africa. Vulcania (South Africa): Offers custom cable trays with online quotes for industrial projects, which can be adapted for North African orders.

Local distributors: Many North African electrical suppliers can fabricate custom trays locally, often reducing shipping costs and lead times.

Recommendations

Request custom quotes from multiple suppliers, specifying material, dimensions, and any special coatings. Consider local fabrication to reduce import costs and ensure compliance with regional standards. Factor in installation accessories such as bends, tees, and clamps, which can add 10–20% to the total project cost.

By considering these factors, you can obtain a reliable estimate for custom-made cable trays in North Africa tailored to your project requirements.
