Outdoor rainproof and explosion-proof distribution box

Overview

Browse our durable lineup of outdoor electrical enclosures designed to protect sensitive components from rain, dust, UV exposure, and harsh environmental conditions.

Key Takeaways

Explosion-proof distribution boxes for outdoor use combine high ingress protection (IP65–IP67) with certified explosion-proof ratings (Ex d IIB/IIC), ensuring safe operation in hazardous environments.

Key Features

Material and Construction: Most outdoor explosion-proof distribution boxes are made from high-strength aluminum alloy or stainless steel, often with anodizing or corrosion-resistant treatments to withstand harsh weather and chemical exposure. Some models also use durable plastics like ABS or polycarbonate for lightweight, UV-stabilized housings. Ingress Protection: These boxes typically offer IP65 to IP67 ratings, providing complete protection against dust, rain, and temporary water immersion, making them suitable for outdoor installations.

Proof Certification: They are certified for Zone 1 and Zone 2 hazardous areas with flammable gases, and some also cover Zone 21 and Zone 22 for combustible dust. Common certifications include ATEX, IECEx, and national standards. Explosion-proof marks like Ex d IIB T4 Gb or 1EXDE BT6 GB indicate protection against sparks, arcs, and high temperatures.

Temperature Range: These enclosures support T1–T6 temperature classes, allowing operation in a wide range of industrial conditions, including petroleum refining, chemical production, and offshore platforms. Customization and Installation: Many manufacturers offer custom sizing, mounting brackets, and cable entry options. Vertical or wall-mounted installations are common, and boxes can accommodate steel pipe or cable wiring.

Some models include DIN rail configurations for flexible internal component arrangement. Applications: Suitable for oil and gas stations, chemical plants, mining sites, offshore platforms, and industrial facilities where flammable gases or dust are present. They protect internal electrical equipment, instruments, and tools from environmental hazards and potential ignition sources.

Advantages

Comprehensive protection against dust, water, and explosive atmospheresDurable and corrosion-resistant materials for long-term outdoor useCompliance with international standards ensures safety and regulatory adherenceCustomizable designs to fit specific industrial requirements When selecting an explosion-proof outdoor rainproof distribution box, ensure the IP rating, explosion-proof certification, material, and temperature class match the specific hazardous environment and installation conditions. Manufacturers like Lontu, Shenhai, SinoBreaker, and ROSE Systemtechnik provide a range of options with varying sizes, materials, and certifications to meet industrial needs.

Each enclosure delivers dependable IP65–IP68 sealing for outdoor and industrial use, with options for plastic waterproof distribution box housings and DIN rail

Lontu Explosion-Proof Outdoor Rainproof Junction Box IP66

Durable and Reliable Construction: The Lontu Ltdx explosion-proof outdoor rainproof junction box is made of high-quality aluminum material, ensuring a long-lasting and reliable performance in harsh

Explosion Proof Terminal Boxes for Power Distribution

Find durable explosion proof terminal boxes for power distribution with IP66 waterproof, flameproof construction, and ATEX/IECEX certifications. Click to explore verified suppliers and

Outdoor Waterproof Explosion Proof Junction Box IP66

This heavy-duty explosion-proof junction box is cast from die-cast aluminum, built to withstand harsh outdoor environments. It''s designed for industrial sites such as oil, gas, and manufacturing where

Explosion Proof Distribution Box & Electrical Enclosures

Durable Hexlon Explosion Proof Distribution Boxes and Electrical Enclosures, IECEx and ATEX certified for Zone 1 and Zone 2.

Lontu IP66 Explosion-Proof Outdoor Junction Box for Zone 2

Durable and Rugged Design: This explosion-proof outdoor rainproof junction box is crafted from high-quality aluminum, ensuring a long-lasting and robust structure that can withstand harsh

world.taobao : Outdoor Plastic Waterproof Distribution Box with ...

welcome to taobao shopping outdoor plastic waterproof distribution box with transparent double-layer door, foundation box, outdoor engine, foundation box, outdoor engine engine control box, taobao

Stainless steel distribution box 2026 summer rainproof and explosion ...

1688 procurement: stainless steel distribution boxes. supports 304/316 stainless steel, ip65 protection, and custom outdoor rainproof/explosion-proof options. mid-year mega sale - ready to ship! get the
