Price of 24-core fiber optic terminal box

Overview

Fiber Optic Terminal Box 24 Core 24 Port Fiber Patch PanelAbout this item [HIGH CAPACITY FIBER MANAGEMENT] This 24-core fiber terminal box efficiently spli.

Key Takeaways

A 24-core fiber optic terminal box typically costs between $8 and $60, depending on material, features, and supplier. Price Range and ExamplesLow-cost options: Basic 24-core outdoor fiber distribution boxes can be found for around $8 on eBay, suitable for simple wall or pole mounting with standard FTTH compatibility. Mid-range options: Amazon listings for 24-core fiber optic terminal boxes, including wall-mounted or rack-mounted units with steel or plastic construction, generally range from $25 to $60.

These often include splice trays, adapters, pigtails, and cable management accessories. Specialized or rack-mounted units: High-quality rack-mounted 24-core boxes with electrostatic painted steel and full accessory kits may cost $50–$60 or more, depending on brand and included components.

Factors Affecting Cost

Material: Steel boxes are more durable and weather-resistant, while plastic boxes are lighter and cheaper. Indoor vs. Outdoor Use: Outdoor-rated boxes often include weatherproofing, which increases cost.

Included Accessories: Boxes with splice trays, adapters, pigtails, and cable management hardware are more expensive than bare units. Mounting Type: Wall-mounted boxes are generally cheaper than rack-mounted sliding units. Supplier and Shipping: Prices vary between online marketplaces (Amazon, eBay) and specialized fiber optic distributors, and shipping costs may affect the total price.

Summary

For a 24-core fiber optic terminal box, expect to pay $8–$60 depending on quality, material, and included accessories. For professional installations requiring durability and full accessory kits, mid-range options around $30–$60 are typical, while basic units for simple setups can be purchased for under $10.
