Price of Double-Layer Enclosed Cable Trays

Overview

Cable Tray Price List 2024 PDFPrice List Cable Tray 2024 - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online. Enclosed.

Key Takeaways

Double-layer combined cable trays typically range from $5 to $50 per meter, depending on material, design, and supplier. Price Range by Material and TypeSteel (galvanized or powder-coated): $5–$25 per meter, offering strength and durability for heavy-duty applications. Aluminum: $6–$30 per meter, lightweight and corrosion-resistant, suitable for outdoor or industrial environments.

Fiberglass (FRP): $10–$50 per meter, non-conductive and ideal for electrical insulation in sensitive installations. Double-layer trays can come in ladder, solid-bottom, trough, or wire mesh designs, each affecting the price. Ladder trays are robust and suitable for heavy cables, solid-bottom trays protect sensitive cables, and wire mesh trays provide ventilation and lightweight handling.

Supplier Pricing Examples

In India, suppliers offer competitive rates for metal cable trays: Global Manufacturers And Traders start at ₹90/meter, Super Cable Tray Private Limited at ₹95/meter, and SV Metal & Extrusions at ₹100/piece. International suppliers, including Alibaba and RS Components, provide a variety of double-layer trays with prices influenced by material, size, and customization options.

Additional Cost Considerations

Fittings and accessories (bends, tees, risers) are priced per piece and can add to the total cost. Installation costs vary depending on complexity, supports, and labor, which should be factored into budgeting. Overall, the price of double-layer combined cable trays depends on material choice, tray type, length, and supplier, with steel being the most cost-effective and fiberglass the most expensive.

For precise pricing, contacting suppliers directly for quotes and bulk order discounts is recommended.
