Price of Large Metal Cable Trays

Overview

Cable Tray Price List 2025: Current Market Rates Find the latest cable tray price list for 2025. Compare B2B and B2C pricing, materials, and supplier optio.

Key Takeaways

Metal cable tray prices typically range from $2 to $25 per meter, depending on material, type, size, and surface finish, with bulk orders offering significant discounts.

Price Overview

Per Meter Pricing: The average cost of metal cable trays ranges from $2 to $25 per meter, influenced by material, tray type, width, height, and surface finish. Galvanized steel is the most common and cost-effective, stainless steel is more expensive due to corrosion resistance, and aluminum is lightweight but pricier than steel. Plastic trays are cheaper but unsuitable for heavy loads.

B2

C vs B2B Pricing: Retail prices for small-scale purchases (e.g., Amazon) range from $15 to $34 per unit, while wholesale or bulk orders (e.g., Alibaba) can range from $0. 80 to over $76 per unit, depending on size and customization. Bulk orders can reduce costs by 20%–40%.

Supplier-

Specific Rates: For example, M. G. Cable Industries in Mumbai lists coupler plates for 25/50 mm trays at ₹16 per piece and for 75/100 mm trays at ₹30 per piece, with GST and delivery charges extra.

Minimum order quantities typically apply, such as 50 meters.

Factors Affecting Price

Material Type: Steel (cheapest), stainless steel (most expensive), aluminum (lightweight), plastic (budget-friendly). Surface Treatment: Hot-dip galvanizing (HDG) and powder coating increase durability and cost. Tray Dimensions: Wider and taller trays require more material, increasing price.

Tray Type: Ladder trays are more expensive but support heavier cables; wire mesh and perforated trays are cheaper. Order Quantity: Larger orders reduce per-unit cost. Installation & Shipping: Labour, accessibility, and transport costs can significantly affect total project cost.

Cost-

Saving Tips

Opt for perforated trays instead of ladder trays if weight is not a concern to save up to 15%. Consider bulk purchasing or importing from regions like China to reduce costs by 30%–50%. Include accessories and couplers in the budget, as these can add to the total cost.

For precise pricing tailored to your project, it is recommended to request a quotation from suppliers with your tray specifications, dimensions, and order quantity. This ensures accurate cost estimation including delivery and installation.
