Price of Taiwan Mesh Cable Tray Manufacturing

Overview

Comprehensive Study of Taiwan Wire Mesh Cable Trays MarketThe Taiwan Wire Mesh Cable Trays Market is expected to see significant growth from 2022 to 2028.

Key Takeaways

Mesh cable trays from Taiwan manufacturers typically range from $10 to $50 per meter depending on material, finish, and customization options.

Overview of Taiwan Mesh Cable Tray Suppliers

Taiwan offers a variety of mesh cable tray manufacturers specializing in wire mesh, ladder-type, and basket-style trays. Leading suppliers include Jeetmull Jaichandlall, Tianhong Cable Tray, and multiple vendors on platforms like Alibaba and ttnet.net. These manufacturers provide trays in galvanized steel, stainless steel (SS304), powder-coated, and PVC finishes, suitable for industrial, IT, and telecom applications.

Price Ranges

Standard wire mesh trays: Approximately $10–$25 per meter for basic galvanized or powder-coated trays. Stainless steel trays (SS304): Typically $25–$50 per meter, reflecting higher corrosion resistance and durability. Customized trays: Prices vary based on length, width, height, coating, and fire-resistant options, often requiring negotiation with suppliers.

Accessories and supports: Additional costs apply for mounting kits, tray covers, and wall/floor supports, which are essential for complete cable management systems.

Ordering and Minimum Quantities

Many suppliers offer negotiable minimum order quantities, especially for bulk industrial orders. Some platforms, like Alibaba, provide free samples for evaluation before committing to larger orders. Customization options include tray dimensions, finishes, and optional fire-resistant coatings, which can influence final pricing.

Key Considerations

Material selection affects both price and durability: stainless steel is more expensive but highly resistant to corrosion, while galvanized steel is cost-effective for general use. Finish and coating: Powder-coated or fire-resistant trays may increase costs but improve longevity and safety. Supplier reputation: Taiwan manufacturers are known for high-quality finishing and adherence to international standards, which can justify slightly higher prices.

In summary, when sourcing mesh cable trays from Taiwan, expect base prices from $10 to $50 per meter, with variations depending on material, finish, and customization. Engaging directly with suppliers or using platforms like Alibaba or ttnet.net allows for price negotiation, bulk discounts, and tailored solutions for specific industrial or IT applications.
