Price of Thickened Distribution Box Handle

Overview

Thickened black nylon handle distribution box equipment. The design of this handle is very simple and elegant, and the matching of black nylon material.

Key Takeaways

The price of a thickened distribution box handle typically ranges from a few dollars per unit to around $10–$15 depending on material, size, and supplier.

Product Overview

Thickened distribution box handles are designed for durability and ease of use in electrical cabinets. Common materials include black nylon for corrosion resistance and aluminum alloy for strength and thermal conductivity, making them suitable for both industrial and household applications. These handles are often surface-mounted, with streamlined designs for smooth operation and long service life.

Pricing Examples

Taobao lists thickened black nylon and aluminum alloy handles, though exact prices vary by seller and order quantity. Amazon offers similar distribution cabinet handles, generally priced in the $5–$15 range per unit, depending on size and material. Alibaba provides wholesale options, where bulk orders can reduce the per-unit cost significantly, and custom specifications may affect pricing.

Considerations

Material: Nylon handles are lightweight and corrosion-resistant, while aluminum alloy handles offer higher strength and durability. Size and Design: Larger or ergonomically designed handles may cost more. Order Volume: Wholesale or bulk purchases often lower the per-unit price.

Supplier Location: Prices may vary based on shipping and regional availability. For the most accurate pricing, it is recommended to check the specific product listings on Taobao, Amazon, or Alibaba, or contact suppliers directly for quotes based on your required specifications and quantity.
