Price of anti-sway brackets for cable tray installation

Overview

Choose from our selection of cable tray mounting brackets in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

Anti-sway brackets for cable trays typically range from $10 to $100+ per unit depending on type, size, and material.

Types of Anti-

Sway Brackets

Seismic or Sway Bracing KitsDesigned for long cable tray runs and seismic applications. Include components like threaded rods, yokes, and pre-stretched galvanized aircraft cables. Examples: Legrand Cablofil Seismic Bracing Kit, Eaton TOLCO B-Line series seismic cable bracing.

These kits are often priced higher due to engineered design and lab-tested performance.

Stand-

Off Brackets

Used to space cable trays from walls or surfaces. Sizes range from 50mm to 300mm, made from pre-galvanized or hot-dipped galvanized steel. Suitable for standard anti-sway support in non-seismic applications.

G Hanger and Trapeze Support Brackets

Provide overhead support for cable trays, trunking, or baskets. Available in multiple widths (100mm, 150mm, 225mm) and drop lengths. Constructed from durable steel or stainless steel for corrosion resistance.

Factors Affecting Price

Material: Stainless steel (A316/A4) is more expensive than pre-galvanized or hot-dipped galvanized steel. Size and Load Capacity: Larger brackets or kits designed for heavy cable loads cost more. Seismic Certification: Brackets and kits tested for seismic compliance are priced higher due to engineering and lab testing.

Supplier and Region: Prices vary by distributor and shipping location. Suppliers include Direct Channel, McMaster-Carr, RS Components, Legrand, and Eaton.

Typical Price Range

Basic stand-off or G hanger brackets: $10–$30 per unit. Trapeze support brackets: $20–$50 per unit depending on size. Seismic/anti-sway bracing kits: $50–$100+ per kit, depending on included components and certification.

For exact pricing, it is recommended to contact suppliers directly or request a quote online, as prices fluctuate based on quantity, material, and project specifications.
