Overview

Fiberglass Cable Trays | Fiberglass Grating | Uniflex Fiberglass cable trays provide the load capacity of steel plus the non-conductive & non-magnetic chara.

Key Takeaways

Leading manufacturers of fiberglass cable trays include ALOIS Composites, Oglaend System Group, Enduro Composites, Friedrichs, Hallas Fiberglass, L-com Global Connectivity, Cablofil, and Ideal Industries. Global Leaders

ALOIS Composites: A premier European producer, known for high-quality pultruded fiberglass trays suitable for corrosive environments such as chemical plants, offshore platforms, and power utilities, offering lightweight yet strong solutions that reduce installation time and costs.

Oglaend System Group: A global leader supplying fiberglass trays to oil & gas, marine, and industrial sectors across 50+ countries, with products engineered for extreme conditions, corrosion resistance, and fire retardancy.

Enduro Composites: Dominates the North American market, providing trays with exceptional dielectric properties and high strength-to-weight ratios, ideal for high-voltage and coastal installations.

Notable Manufacturers in Industrial and Commercial Applications

Friedrichs: Offers fiberglass trays designed for harsh environments, including chemical processing, wastewater treatment, and oil & gas industries, emphasizing safety and performance. Hallas Fiberglass: Produces lightweight yet robust trays that meet rigorous industry standards, providing both off-the-shelf and custom solutions. L-com Global Connectivity: Supplies high-strength fiberglass trays for data centers and telecommunications installations, with a focus on sustainability and diverse configurations.

Cablofil (Legrand): Known for innovative wire mesh and fiberglass trays, facilitating easier installation and maintenance, widely used in industrial applications. Ideal Industries: Offers advanced fiberglass cable trays with comprehensive installation options, emphasizing continuous product innovation.

Regional Considerations

Europe: Manufacturers like Niedax Group (Germany), Spina Group (Italy), and Legrand (France) are recognized for high-quality, compliant solutions suitable for industrial and infrastructure projects. North America: Companies such as Enduro Composites and Snake Tray provide durable, corrosion-resistant trays for utilities, solar installations, and transit systems. Asia and South America: Regional manufacturers focus on climate-resistant and cost-effective solutions tailored to local environmental conditions and industrial standards.

These manufacturers are widely recognized for their durability, corrosion resistance, fire safety, and customization capabilities, making them reliable choices for industrial, commercial, and infrastructure projects requiring fiberglass cable trays.
