Quotation for 800G laser diode

Overview

Shop DigiKey''s large in-stock selection of Laser Diodes, Modules. View inventory, pricing and order now for same day shipping!

Key Takeaways

To obtain a quotation for an 800G laser diode, you should contact authorized distributors like Mouser Electronics or DigiKey, providing your required specifications and quantity.

Recommended Suppliers

Mouser Electronics: Offers a wide range of laser diodes from manufacturers such as ams Osram, KYOCERA AVX, and ROHM Semiconductor. You can filter by wavelength, power, and package type, and request a quote directly through their website for specific high-power diodes.

Digi

Key: Provides laser diodes and modules with power ranges from milliwatts to multiple watts. You can view inventory, datasheets, and request pricing for bulk orders.

RPM

C Lasers: Specializes in semiconductor laser diodes from UV to LWIR, including high-power fiber-coupled systems. They can provide custom quotations for high-power applications like 800G diodes. Steps to Obtain a QuotationSpecify Technical Requirements: Include wavelength, optical power (800G), package type (fiber-coupled or free-space), and any temperature or stability requirements.

Determine Quantity: Pricing often depends on the number of units ordered. Contact Sales or Request Quote Online: Use the distributor's “Request Quote” or “Contact Sales” feature to submit your specifications. Check Lead Time and Shipping: High-power laser diodes may have longer lead times and require special handling.

Additional Considerations

Tariffs and Import Fees: If shipping internationally, be aware of potential tariffs that may apply. Datasheets: Review datasheets for electrical and optical specifications to ensure compatibility with your system. Custom Solutions: For very high-power diodes like 800G, some suppliers may offer custom modules or fiber-coupled assemblies to meet your requirements.

By following these steps and contacting the suppliers directly, you can obtain an accurate quotation tailored to your application and quantity needs.

Article Content

Laser Diodes – Mouser

Laser diodes are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many laser diode manufacturers including ams Osram, KYOCERA AVX,

Laser Diodes, 808nm to 895nm (SHOP FROM ALL OF THE BRANDS)

Laser Diodes from 808nm to 895nm from ALL TOP MANUFACTURERS, 10mW-500W, COHERENT / QUANTEL / LUMICS / LUMENTUM & More, Buy-Direct & Save on LaserDiodeSource

Laser Diodes, Modules | Optoelectronics | DigiKey

Shop DigiKey''s large in-stock selection of Laser Diodes, Modules. View inventory, pricing and order now for same day shipping!

Laser Diodes – Buyer''s Guide & Supplier List | RP Photonics

This buyer''s guide for laser diodes provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

New Rofin Hilberling HN-800G Diode Laser Power Management (DHL

If you need which brand and model, you can email us at any time and we will provide you with the most favorable quotation. We will arrange shipment within 3-5 days after payment.

Laser Diode chips

Combined with TRUMPF''s proprietary facet passivation technology these laser diodes have industry leading reliability for high optical power loads on the laser facet. Standard wavelength is 970 nm.

price list

CHIP-650-P10, 650 nm, 10 mW, laser diode chip, sm (no guarantee on bare dies!)
CHIP-650-P30, 650 nm, 30 mW, laser diode chip, (no guarantee on bare dies!)
CHIP-660-P100, 660 nm, 100 mW, laser

High Power Lasers Diodes (10W ~ 1kW)

Please note that unlike most low power laser diodes, prices for comparable high power devices will vary a lot (sometimes by a factor of 2 or more) by manufacturer.

LM-808-Q800-C16-HA

LM-808-Q800-C16-HA - Laser Diode from Lumispot Tech. Get product specifications, Download the Datasheet, Request a Quote and get pricing for LM-808-Q800-C16-HA on GoPhotonics

InP Optoelectronics | Coherent

Use these InP-based lasers, devices, and photodiode products, for high-speed O- C- and L-band fiber optical communications.

High-Efficiency Lasers for Silicon Photonics Transceivers

Specifically engineered for silicon photonics transceiver modules, this innovative laser family represents a leap forward in indium phosphide (InP) laser technology. Designed to operate in

Know Your 800G Transceiver | Juniper Networks

An 800G transceiver uses multiple lanes of optical signals and advanced modulation techniques to achieve higher capacities. 800G transceivers employ multiplexing using multiple fibers. These

Blue Lasers – Buyer''s Guide & Supplier List | RP

This buyer''s guide for blue lasers provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

Arktis Laser | Scientific Lasers | Arktis Laser

The LRD-0800 Series of Collimated Diode (Semiconductor) Lasers are ideal for applications requiring a wavelength of around 800 nm and a wide range of output power levels from 100 mW to 2 W with a

High Power Laser Diode at 808, 915 or 976 nm

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

High power laser diode from 10 to 450 W at 808, 915, 976 or 1064 nm ... Turn-key integrated laser diode module called "CCMI" for 10 to 200 W multimode laser diodes. The module is offered with a high

Red Laser Diode Modules 500mW to 5000mW

We are offering Red Laser Diode Modules High Power having following specification : Laser Wavelength650nm Laser Output Power: 500Mw to 5000mW Beam

EML vs DML: What Are the Differences?

EML and DML are two essential laser technologies used in 100G/200G/400G/800G transceivers. The key differences between EML and DML will be illustrated in this article.

Laser Diodes | 5,000+ Products from 100+ Manufacturers

A Laser Diode is a type of semiconductor device that produces coherent light through the process of stimulated emission. Laser Diodes from the leading manufacturers are listed below.
