Recommended optical cable pulling machine

Overview

Fiber Optic Cable Pullers The Fiber Cable puller is a simple, easy to use cable puller that is designed to accommodate industry standard sheaves of 9”, 24”.

Key Takeaways

For safe and efficient fiber optic installation, machines with precise tension control, adjustable capstans, and suitable power sources are recommended, such as GMP SideWinder, Condux Fiber Optic Cable Puller, and Lancier NanoWheel. Top Recommendations1.

GMP Side

Winder Trailer-

Mounted Fiber Optic PullerDesigned for underground telecommunication cables and high-density fiber. Features a 32" or 42" diameter capstan for controlled pulling force. Battery-powered with adjustable tension limits and remote control operation.

Free-spinning design reduces stress on the cable and ensures smooth conduit transitions. 2.

Condux Fiber Optic Cable Puller

Hydraulic motor with variable speed foot control and optional electronic tension control. Equipped with a load cell for precise tension measurement and digital recording. Maximum pull tension adjustable, typically up to 600 lbs on a 30" capstan.

Ideal for long-distance or high-tension pulls, ensuring minimal risk of fiber damage. 3. TUF-Lugger Lite Cable PullerLightweight and portable, suitable for indoor or smaller-scale projects.

Available in gas or electric versions, accommodating standard sheaves (9", 12", 30", 40"). Simpler and less costly than hydraulic pullers, while still maintaining safe bend radius for fiber. 4.

Lancier NanoWheelOptimized for microduct and in-building fiber installations. Features sensor-controlled pushing force to prevent exceeding tension limits automatically. Quick setup, tool-free adaptation to various duct and cable sizes, and precise length measurement.

Best for confined spaces and FTTx network deployments.

Key Features to Consider

Tension Control: Automatic monitoring prevents fiber breakage or micro-bending. Capstan Size: Larger capstans reduce stress on the cable during long pulls. Power Source: Battery, electric, hydraulic, or gas options depending on site conditions.

Portability vs.

Heavy-

Duty: Choose lightweight units for indoor or short runs, and trailer-mounted or hydraulic units for long-distance or high-tension pulls. Compatibility: Ensure the machine matches the conduit size and cable type. For high-tension or long-distance fiber installations, investing in a machine with integrated tension monitoring and adjustable speed control is critical to protect cable integrity and ensure safety.

For indoor or microduct applications, compact units like the NanoWheel provide efficiency without overloading delicate fiber.

Fiber Optic Cable Pullers

The Fiber Cable puller is a simple, easy to use cable puller that is designed to accommodate industry standard sheaves of 9”, 24”, 30", or 40” diameter specifically intended for use with fiber optic cables

Fiber Optic Cable Puller

Enter your duct size and fiber optic cable size to determine the best fiber optic cable blower for your application. The length of run represents a specific portion or

FIBER PULLING | General Machine Products Company

© 2026 CJC FIBRE CONSULTANTS - All rights reserved

The GMP SideWinder Trailer-Mounted Fiber Optic Puller is engineered to surpass the requirements for installing underground telecommunication cables and high

Fiber Pulling Machine: Efficient Cable Installation Tool

Discover the fiber pulling machine''s role in efficient cable installation. Learn how it works, what materials it processes, and key industry applications. Click to explore top-rated models with

Fiber Optic Cable Puller Trailer

Options include a choice of two Condux Fiber Optic Cable Puller packages, choice of four capstans, a 13 HP (9.7 kW) Power Pack and a Remote Mounting Stand.

Optical Cable Pulling machine cable puller for duct rod and fiber optic ...

The Fiber Optic Puller sets a new standard for safe and precise pulling of fiber optic cable. The puller can provide load cell torque input for the

The Gear Page

Join a vibrant community of musicians and gear enthusiasts discussing instruments, effects, setups, and more on The Gear Page forum.

Fiber Optic Cable Supplier, Distributor

Stocking distributor of fiber optic installation tools, bulk fiber cables, fiber patch cables, test equipment, cable management, fiber optic training and more.

Fiber Optic Pull

Description & Use Your new GMP Fiber Optic Pulling Capstan is a versatile and highly productive tool for placing fiber optic cable. It is based on GMP''s accessory approach to fiber cable placing that lets

eCAPSTAN ELECTRIC FIBER OPTIC PULLING CAPSTAN | General Machine ...

Introducing the eCAPSTAN ELECTRIC FIBER OPTIC PULLING CAPSTAN – the ultimate solution for clean, quiet, and efficient cable pulling. Designed to deliver up to 900 lbs of pulling force, this

Optical Cable Pulling Machines

Shop our selection of optical cable pulling machines for efficient fiber optic cable installation and maintenance. Reliable and durable solutions for your needs.

Easier and Quieter Cable Pulling with eCapstan from

You can get15,000 ft of pulling power on a single charge and the battery life is well over5 years. With its easy-to-use controls and variable speed

Hydraulic Cable Pulling Machine 8 Ton

With our extensive range of cable pulling machines, you can select the ideal model to match your project''s requirements. Whether you need to pull lightweight fiber optic cables or heavy copper power

Fiber Optic Cable Pulling Machine

Find reliable fiber optic cable pulling machines for efficient cable management. Shop our range of durable, high-performance solutions for various applications.

Optical Cable Pulling Machine

Optical Cable Pulling machine for duct rod and fiber cable. Achieve speeds of 30-70 meters per minute with a traction of over 3KN. Ideal for various cables.| Alibaba

HYDRAULIC CABLE PULLING MACHINE 12-15 TONS

With a diverse range of cable pulling machines, we offer solutions tailored to your specific needs. Whether you are installing subsea power lines, fiber optic cables, or high-voltage networks, our 12-15

Fiber Optic Cable Pulling Traction Machine

Fiber Optic Cable Pulling Traction Machine Fiber Optic Cable Pulling Traction Machine. It''s very common for municipalities and telecom enterprises to carry out buried pipeline construction and

SIDEWINDER 42 INCH CAPSTAN FIBER OPTIC PULLER | General Machine ...

When the winch is in working mode, the rear props are extended out of the chassis to provide greater stability. Keywords related to this product include Trailer trailer-mounted winch, Fiber Optic Puller,
