Key Takeaways

Flame-retardant cable trays in Jamaica typically range from USD 20 to USD 80 per meter, depending on material, size, and supplier. Price OverviewFlame-retardant cable trays, including FRP (Fiberglass Reinforced Plastic) and GRP (Glass Reinforced Plastic) types, are widely available in Jamaica for commercial, industrial, and residential projects. The price depends on several factors: Material: FRP trays are lightweight, corrosion-resistant, and self-extinguishing, generally costing more than standard steel trays.

Size and Type: Ladder, perforated, and solid-bottom trays vary in price. Larger widths and heavier-duty trays increase the cost. Supplier and Brand: Local distributors like Cesco Limited, L.

S. Duhaney & Co Ltd, and CB Cabling Technologies Ltd offer competitive pricing and technical support.

Typical Price Range

Small to medium FRP trays (100–200 mm width): USD 20–40 per meterLarger or heavy-duty FRP trays (300–600 mm width): USD 50–80 per meterSteel or galvanized alternatives: Slightly lower, around USD 15–60 per meter depending on thickness and finish.

Additional Considerations

Accessories: Bends, brackets, and couplers are sold separately and can add 10–20% to the total cost. Installation: FRP trays are easier to handle and install due to their lightweight nature, potentially reducing labor costs. Customization: Many suppliers in Jamaica can provide trays in custom lengths, colors, and resin types, which may affect pricing.

For accurate pricing, it is recommended to contact local suppliers directly for quotes based on your project specifications, as prices fluctuate with material availability, import costs, and order volume.
