Scsc multimode dual-core fiber

Overview

Terminated with durable ceramic ferrule SC connectors, this high bandwidth multimode cable has Corning optical fiber glass for high speed, low loss, data transmission. A professional grade, orange colored, 3. Are you factory or trading company?

We have 2 big factories, one is for fiber optic cable, the other one is for communication equipments,so we can offer you high quality,factory price and fast delivery. 5/125 microns is around 300 meters for gigabit and until 2Km for 10/100Mb. Finite multimode fiber patch cords are produced on a large scale using advanced technology and equipment, offering excellent performance, stability, and reliability. Low insertion loss Good repeatability Excellent interchangeability High return loss Good interconnection performance Good temperature. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 30% may be applied if shipping to the United States. FiberOptic Supply fiber optic patch cords provide the ideal medium for all your fiber optic interconnect applications. It provides an expert-curated supplier directory, buyer-focused technical background information, and structured selection criteria to support professional procurement decisions. What are Multi-core Fibers?
