Sierra Leone DAC High-Speed Cable Company

Overview

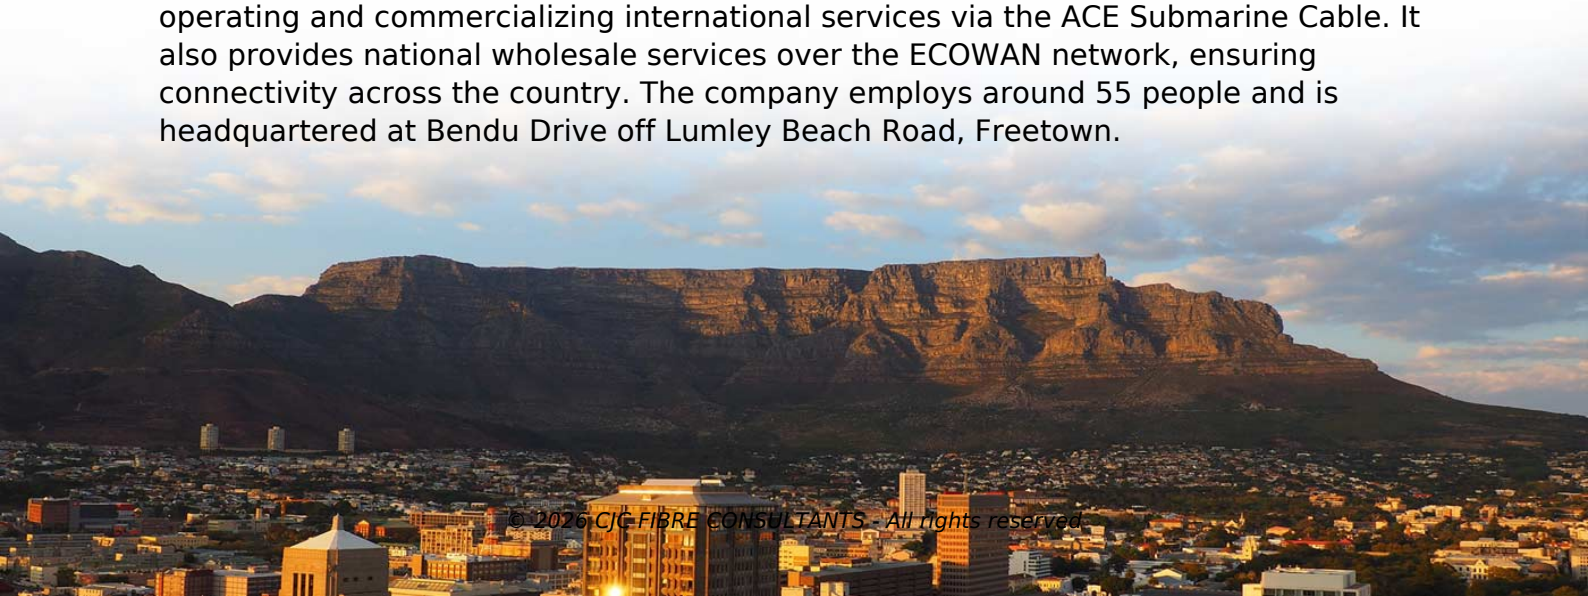

Sierra Leone Cable Company Profile | Management and. Find contact information for Sierra Leone Cable. Learn about their Internet Service Providers, Webs.

Key Takeaways

Sierra Leone's high-speed cable infrastructure is primarily managed by the government-owned Sierra Leone Cable Limited (SALCAB) and the private operator Ultra One, both providing critical broadband and submarine cable services. Sierra Leone Cable Limited (SALCAB)SALCAB is a wholly government-owned optical fiber infrastructure company, incorporated in 2012 as a limited liability company. It operates as a regulated wholesale bandwidth provider and offers value-added services to the ICT sector, aiming to make broadband internet affordable for government institutions, households, businesses, educational and health sectors, and NGOs across Sierra Leone.

SALCA

B is the ACE Submarine Cable Landing Party in Sierra Leone, responsible for operating and commercializing international services via the ACE Submarine Cable. It also provides national wholesale services over the ECOWAN network, ensuring connectivity across the country. The company employs around 55 people and is headquartered at Bendu Drive off Lumley Beach Road, Freetown.

Ultra One

Ultra One is a private high-speed connectivity company formed from the merger of ZoodLabs and Metro Cable, combining innovation in smart broadband and a robust fiber-optic backbone. Ultra One has invested in 5G Open-RAN technology, making it the first in Sierra Leone to deploy open-access 5G infrastructure that supports both fixed and mobile data services. This allows flexible, vendor-neutral connectivity solutions for mobile operators, ISPs, and enterprises, lowering costs and accelerating deployment.

Ultra One's services span undersea capacity, nationwide fiber, edge-ready 5G, and cloud services, positioning it as a key player in expanding fast, affordable, and reliable internet access across Sierra Leone and the sub-region.

Strategic Role in Sierra Leone

Both SALCA

B and Ultra One play complementary roles in Sierra Leone's digital ecosystem.

SALCA

B provides government-regulated, wholesale international and national bandwidth, while Ultra One focuses on innovative, open-access high-speed connectivity for commercial and enterprise clients. Together, they support the country's National Broadband Strategy, which aims to transform Sierra Leone into a digital economy through improved ICT infrastructure, regulatory frameworks, and inclusive access to broadband services. SummarySALCAB: Government-owned, ACE submarine cable operator, national wholesale services, regulated ICT provider.

Ultra One: Private high-speed broadband provider, 5G Open-RAN deployment, fiber and cloud services, enterprise and mobile connectivity. Both companies are central to expanding broadband access, supporting digital innovation, and enabling economic growth in Sierra Leone.
