Key Takeaways

The main electricity distribution company in Sierra Leone is the Electricity Distribution and Supply Authority (EDSA), with private suppliers like Harry's SL LTD providing electrical components including distribution boxes. Electricity Distribution and Supply Authority (EDSA) EDSA is the primary organization responsible for the distribution and supply of electricity across Sierra Leone, formed after the unbundling of the National Power Authority in 2014. Its operations are mainly centered in the Western Area, but it aims to expand nationwide.

EDS

A manages the supply, distribution, and retail sale of electricity, ensuring safe and reliable service for residential, commercial, and industrial customers. The company employs over 700 staff and is headquartered at Electricity House 5A, High Broad Street, Murray Town Road, Freetown.

EDS

A generates approximately \$4.05 million in revenue and oversees the technical and commercial aspects of electricity distribution.

Private Electrical Component Suppliers

For electrical distribution boxes and related components, private suppliers like Harry's SL LTD are key players. Established in 1963 in Freetown, Harry's SL LTD provides a wide range of electrical supplies, building materials, and FMCG products throughout Sierra Leone. They maintain a strong logistics network to ensure prompt delivery and offer products suitable for both residential and commercial electrical installations.

Their locations include 56 Siaka Steven Street, Freetown, and 28 Main Freetown Road, Waterloo Highway. SummaryEDSA: Main electricity distributor, responsible for nationwide electricity supply and distribution infrastructure. Harry's SL LTD: Private supplier of electrical components, including distribution boxes, with extensive distribution coverage.

For businesses or individuals seeking electrical distribution boxes in Sierra Leone, contacting EDSA for official distribution infrastructure or Harry's SL LTD for procurement of components is recommended.
