Their products are designed for efficient cable management and can be customized to meet project-specific requirements. Quotations can be requested directly through their website.

Considerations for Quotation Requests

Material and Finish: Choose between pre-galvanised steel, electro-galvanised steel, stainless steel, or FRP depending on environmental conditions. Tray Type: Ladder, perforated, wiremesh, or solid-bottom trays depending on cable type and airflow requirements. Load Capacity and Size: Ensure the tray supports the weight and volume of your cables.

Provide specifications to suppliers for accurate pricing. Compliance: Confirm that trays meet local and international standards relevant to Singapore projects. Project Scope: Include the total length, number of fittings, bends, and installation requirements to get a precise quotation.

For the most accurate quotation, it is recommended to contact suppliers directly with your project specifications, including tray type, material, dimensions, and quantity. This ensures you receive a tailored quote that meets both technical and budgetary requirements.
