Single-mode fiber optic patch cord supply

Overview

Designed for use with lasers from 450 – 1650nm in 1m, 2m and 5m standard lengths, these Single Mode Fiber Optic Patchcords are ideal for applications including beam delivery, microscopy, and telecommunications. Each connector is engraved with the fiber type for easy integration. Have any questions?

Talk with us directly using LiveChat. Also available are single mode patch cables with AR-coated FC/PC or FC/APC connectors for improved fiber-to-free-space coupling. FiberOptic Supply fiber optic patch cords provide the ideal medium for all your fiber optic interconnect applications. They are designed, manufactured and tested according to protocol and performance dictated by the industry standards. The quality of the components used to build our fiber optic. Our standard patch cables are available in several different lengths and connector types. These fibers have a 900 µm jacket surrounded by a layer of Aramid yarn for extra protection. to configure a custom fiber-optic patch cord. In this category, you will find various duplex and simplex LC/SC/FC/ST/Uniboot LC/MDC fiber optic patchcords, which are used to connect network devices such as switches, routers, and fiber transceivers.
