Standard Price List for Finished Optical Cable Installation

Overview

Discover the cost of fiber optic cable in this pricing guide. Learn material prices, installation factors, and what impacts total project costs overall.

Key Takeaways

The typical cost for finished fiber optic cable installation ranges from $2 to $14 per foot, depending on cable type, installation method, and project complexity.

Cost Overview

The total price of fiber optic installation includes cable materials, labor, connectors, conduit, permits, and testing. For standard single-mode fiber in moderate conditions: Basic indoor installation: $2,650–$3,100 for 1,000 ft (~$2. 65–$3.

10/ft) including cable, labor, and minimal accessories. Mid-range outdoor installation: $4,940–$6,120 for 2,000 ft (~$2. 47–$3.

06/ft) with conduit, multiple terminations, and testing. Premium complex installation: $11,000–$14,500 for 5,000 ft (~$2. 20–$2.

90/ft) with armored cable, multiple splices, urban trenching, and professional certification. Per-meter pricing for smaller or mixed indoor/outdoor runs typically ranges from $0. 75 to $3.

50 per meter, depending on labor, connectors, and permitting.

Factors Affecting Price

Cable Type: Single-mode fiber is more expensive than multimode; armored or outdoor-rated cables cost more than indoor riser-rated cables. Installation Method: Underground trenching or bore work increases costs, especially in rocky or urban areas; aerial deployment is generally more expensive per mile. Labor and Permits: Labor rates vary by region, and permits or restoration work can add 5–25% to total costs depending on location.

Project Complexity: Longer runs, multiple splices, testing, and certification increase total cost. Urban dense areas typically incur higher labor and permit fees than suburban or rural areas. Accessories and Termination: Connectors, patch panels, and testing equipment contribute to the overall price, especially for high-precision or high-strand-count installations.

Typical Cost Ranges by Project TypeProject TypeDistanceTotal CostCost per FootBasic indoor1,000 ft$2,650–$3,100$2. 65–$3. 10Mid-range outdoor2,000 ft$4,940–$6,120$2.

47–$3. 06Premium urban5,000 ft$11,000–$14,500$2. 20–$2.

90SummaryFor budgeting purposes, finished optical cable installation typically costs between $2 and $14 per foot, with lower costs for simple indoor runs and higher costs for complex outdoor or urban projects. Accurate estimates require professional quotes that consider cable type, terrain, labor rates, permits, and project-specific requirements.
