What are the manufacturers of underground optical cables in Nepal

Overview

Next Technology is a highly experience team that provide turnkey solutions of Optical fiber and networking technology of Telecommunication, CATV and Computer.

Key Takeaways

Key manufacturers and suppliers of underground optical cables in Nepal include Annapurna Cable Industries, Technovate International, and Eman Communications.

Annapurna Cable Industries

Annapurna Cable Industries Pvt. Ltd., part of the Rathi Group, is one of Nepal's leading cable manufacturers with a facility in Biratnagar. They produce a wide range of cables including power cables, XLPE cables, and multi-strand cables, which are suitable for underground installations.

Their products are marketed under the “Rathi” and “Annapurna” brands and are known for high quality and reliability. The company imports raw materials like PVC, copper, and aluminum rods from India and maintains a well-equipped laboratory to ensure quality control. Technovate International Pvt.

Ltd. Technovate International, established in 2017, specializes in providing end-to-end fiber optic products and solutions for ISPs and Cable TV operators in Nepal. While they primarily import fiber optic cables from international manufacturers, they act as a key supplier and integrator for underground fiber optic networks.

They also provide telecommunication equipment and after-sales support, making them a significant player in Nepal's underground optical cable sector.

Eman Communications

Eman Communications focuses on Fiber-to-the-Home (FTTH) and Fiber-to-the-Room (FTTR) networks and offers solutions for underground fiber optic installations in new and planned cities in Nepal. They provide design, installation, and compliance services for underground cabling, ensuring adherence to local standards and optimal connectivity from homes to Fiber Distribution Cabinets (FDC) or Fiber Access Points (FAP),.

Additional Notes

The Nepal Telecommunications Authority (NTA) provides standards and guidelines for underground fiber optic cable installation, which manufacturers and service providers follow to ensure network reliability and safety. While some companies like Annapurna Cable Industries manufacture cables locally, others like Technovate rely on imported products but provide comprehensive solutions and support for underground deployment. These companies collectively cover manufacturing, supply, and installation services for underground optical cables in Nepal, catering to both urban and emerging city infrastructure projects.
