Where can I get cable trays made

Overview

Top 10 Cable Trays Manufacturers And Suppliers | B2B HeadlinesTop 10 Cable Trays Manufacturers And Suppliers Cable trays, as the name suggests, are structu.

Key Takeaways

Cable trays can be purchased from specialized suppliers such as Ekabel24, Eurostrut, Direct Channel, ABB, and McMaster-Carr, offering a wide range of types, materials, and sizes. Online Suppliers and DistributorsEkabel24 offers a comprehensive range of cable trays, ladders, and trunking systems in hot-dip galvanized steel, stainless steel, and halogen-free plastic. Their products comply with DIN EN 61537 and international standards, suitable for indoor and outdoor installations, industrial facilities, and renovation projects (ekabel24.de).

Eurostrut provides durable cable trays for industrial and marine use, including distribution trays, cable routes, and NATO-type models. They offer hot-dip galvanized and stainless steel options, with flexible widths, heights, and configurations for fast installation and safe cable management (eurostrut.com). Direct Channel supplies light, medium, and heavy-duty cable trays with pre-galvanized and hot-dipped finishes.

Their catalog includes couplers, bends, crossovers, lids, and variable risers to accommodate complex routing needs, ensuring organized and robust cable management (directchannel.uk.com).

AB

B manufactures cable tray systems including perforated trays, cable ladders, channel trays, and strut metal framing.

AB

B products are designed for reliability, adaptability, and easy maintenance, with production facilities in Canada and Saudi Arabia to support global projects (new.abb.com). McMaster-Carr offers over 850 cable tray products in various styles and sizes, with options for same-day or next-day delivery, making it convenient for urgent or smaller-scale projects (mcmaster.com).

Considerations When Choosing Cable Trays

Material: Steel, stainless steel, or plastic depending on environmental conditions and load requirements. Type: Ladder, perforated, or channel trays depending on cable weight and ventilation needs. Standards Compliance: Ensure trays meet DIN EN 61537 or equivalent IEC standards for safety and durability.

Accessories: Couplers, bends, lids, and risers for flexible installation and future expansion. By selecting from these suppliers, you can find cable trays suitable for residential, commercial, industrial, or specialized applications, with options for fast delivery and compliance with international standards.
