

Which company in the UAE makes the best low-voltage busbars

Overview

Royal Rubber Electric is a leading supplier of busbar supports and accessories in Dubai, offering a variety of products from top manufacturers.

Key Takeaways

Delta Electric (FZE) is widely recognized as a leading UAE manufacturer of high-quality low-voltage busbars, offering certified, locally produced solutions. Delta Electric (FZE) Delta Electric, based in Sharjah, is the first UAE-made brand of low-voltage and medium-voltage busway systems, known as DELTABAR®. Their products feature copper and aluminum conductors enclosed in extruded aluminum with advanced cooling systems.

DELTABAR® systems are certified by DECRA, Netherlands, and tested for thermal withstandability up to 185°C for three hours, complying with IEC 85 and UL 1446 standards. Delta Electric specializes in sandwich busbar trunking and cast resin metal-enclosed systems, making it a top choice for reliable, high-performance low-voltage distribution in the UAE and GCC region.

Wilmar Busways

Wilmar International LL

C, located in Abu Dhabi, offers sandwich busway systems ranging from 630A to 6300A with copper conductors. Their systems are rated IP54 to IP67 and suitable for commercial, residential, and industrial applications. Wilmar emphasizes energy efficiency, low losses, and robust safety features, including expansion joints for thermal expansion and fire protection.

They provide both indoor and outdoor solutions with high ingress protection, making them a strong competitor in the UAE market.

Precision Electricals

Precision Electricals, headquartered in Dubai, is a leading distributor and manufacturer of electrical switchgear and busbar systems. They focus on custom solutions tailored to project-specific requirements, ensuring high-quality workmanship and compliance with industry standards. Their extensive portfolio includes low-voltage busbars, enclosures, and control gear, supported by a strong regional distribution network across the UAE and Middle East.

Transbar Middle East

Transbar Middle East LL

C specializes in busbar risers and trunking systems, offering engineering support for integrated projects, including site verification and optimization. Their low-voltage busbar solutions are designed for flexibility, efficiency, and minimal installation downtime, making them suitable for large-scale commercial and industrial projects.

Recommendation

For locally manufactured, certified, and high-performance low-voltage busbars, Delta Electric (FZE) stands out due to its pioneering UAE production, international certifications, and advanced thermal and safety testing. Wilmar Busways and Precision Electricals are also excellent options, particularly for projects requiring high customization, energy efficiency, or specific IP-rated enclosures. Transbar Middle East is ideal for flexible, project-integrated solutions with engineering support.
