Xg optical cable

Overview

XG-optic® cables are designed to meet the requirements of 3G/4G/5G installations. They are available in several configurations, including shielded and unshielded cables with cross-sections from 2x6mm² to 2x35mm². As an industry-leading ICT infrastructure and industry solution provider, Ruijie offers customers a wide variety of high-density and low-power 10G optical modules. They are applicable to data center and campus networks, enabling cost-effective, efficient, and high-speed interconnection among. The XG-optic® range covers all requirements for interconnecting active equipment with antennas at mobile sites. XG-optic® cables. The H3C SFP-XG-D-AOC-3M Compatible SFP+ Active Optical Cables are direct-attach fibre assemblies with SFP+ connectors and operate over Multi-Mode Fiber (MMF). This AOC is compliant with SFF-8431 MSA standards.
